January 26, 2013

Estimated Duration

Two days

Impacts

Temporary loss of up to 140 parking spaces, over weekend only

General Work Hours

9 am to 5 pm

Saturday and Sunday as needed

Construction Notification #42

Weekend Tree Removal at Fremont BART Station at Walnut Avenue

January 24, 2013

Work continues on the BART Warm Springs Extension Project with major construction starting at the Fremont Station in May of 2013 and extending through 2014.

In advance of the major work, construction crews will begin removing trees at the Fremont BART Station and Walnut Avenue that fall in the pathway of the new extension. Although the work is being done several months before actual construction begins, the timing is essential to avoid conflicts with the annual nesting bird season. Landscape trees, which must be removed to construct the project, will be replaced during restoration of the existing Fremont station site elsewhere within the project corridor. The public can expect temporary construction-related noise during the tree removal activity. BART will monitor noise and dust and will work to minimize any inconveniences to the surrounding community.

We appreciate your continued patience during construction. If you have questions regarding these activities, please contact our project information line at (510) 476-3900 or e-mail bartwarmsspringsextension@bart.gov. You can also visit our Community Relations Field Office located at 47212 Mission Falls Ct. in Fremont.
