

BART Agreement Number: 6M8142

Approval Date: 02/14/22

Work Plan No. B.22-01 – Steel Bridge Fracture Critical Member Inspection

Scope:

Under this Work Plan AECOM will perform inspections of fracture critical members and fatigue sensitive details for 29 bridges that carry BART passenger lines. 29 inspection reports will be produced regarding the results of those inspections. All inspections will confirm to current applicable criteria as described below. If a crack is discovered or suspected in a fatigue critical member appropriate non-destructive tests will be conducted to determine the existence of a crack. Any issues of immediate structural concern will be brought to BART's attention using means appropriate to the nature of the situation

Prime: AECOM
