Brief Project Description
This project will create an open space plaza at the southern end of the Balboa Park Station in the current passenger drop-off area. The plaza will function as a multi-modal transit hub and a pubic open-space.

Detailed Scope, Project Benefits and Community Outreach
This project will create an open space plaza at the southern end of the Balboa Park Station in the current passenger drop-off area. There will be a transit oriented development project located in the current SFMTA parking area that will create low-income housing with retail spaces at street/ground level. The plaza will function as a multi-modal transit hub and a pubic open-space. The new plaza area will redesign the vehicular access through San Jose Avenue that creates a reduced passenger drop-off area loop, while closing off vehicular access to Geneva Avenue. This will create flexible space that meets the needs of the community, enhances safety and encourages multi-modal access to the station. This project is being planned and designed in coordination with multiple stakeholders including the Balboa Park Station Community Advisory Committee, BART, SFMTA, and the Mayor's Office. The project is included in the Balboa Park Station Area CAC Proposed 2018 Work Plan.
