Join in the Discussion

BART is developing a long-term vision for the 19th St/Oakland Station. Please join us at one of two in-station events to share your thoughts on what improvements you would like to see at the station. Your input will help us to prioritize potential improvements.

Gateway Stations

BART is embarking on a Station Modernization Program that will invest resources and efforts into the existing core stations and surrounding areas to advance transit ridership and enhance the quality of life around the stations. As part of our Station Modernization effort, BART is currently developing a conceptual redesign of the 19th St/Oakland Station. The goal of the project is to develop potential station improvements to upgrade and modernize the station function, safety, capacity, sustainability, appearance, and improve the customer experience. Your input will help to prioritize the improvements based upon future funding opportunities.
