

24th STREET / MISSION

PLANNING BART will be holding a series of community meetings in the winter of 2005/2006 to formulate specific and fundable improvements to the station and plazas that were initially identified in a community planning effort in 2001.

DEVELOPMENT BART continues to monitor potential redevelopment of adjacent properties for opportunities for new access to the plaza and station.

ACCESS IMPROVEMENTS Bicycle racks were installed inside the paid area at the station as well as wayfinding signage for bicycles. Approximately 15-20 bicycles park on the racks on a given weekday.

The District is installing accessible fare gates to accommodate the access needs of customers in wheelchairs, bicyclists, and others with luggage.

REINVESTMENT This station will have upgraded replacement ADA-compliant platform edge tiles installed, pending the receipt of grant funds.
