Revised Construction Notification #003 *Utility Relocation Work*

April 2011

As part of the Oakland Airport Connector (OAC) project, construction crews will conduct utility relocation work to move conflicting underground lines on Hegenberger Road between Airport Access Road and Hegenberger Place. The work will require temporary lane closures and shifting of traffic on Hegenberger Road, Airport Access Road and Hegenberger Place during the months of May and June 2011.

General work hours are 7 am to 7 pm Monday through Saturday.

However, to lessen impacts to traffic in the area, some work will be performed at night between 9 pm and 5 am Monday through Saturday. The work activities will include but are not limited to:

- Placement of traffic signage and temporary closure of lanes on affected streets
- Crews using excavators and personnel vehicles to access work areas
- Cutting of concrete and intermittent jackhammering
- Monitoring of noise and dust to meet local regulations
- Restoration of areas upon completion of the work

Throughout construction you can expect lane closures and traffic impacts in the area and construction related noise, dust and inconvenience. We will attempt to keep these disruptions to a minimum and will provide advance notice of activities whenever possible. Please watch for notices regarding future construction activities and signs with safety information. We appreciate your patience and cooperation during this work.
