Construction Notification #014 *Utility Relocation Work*

October 2011

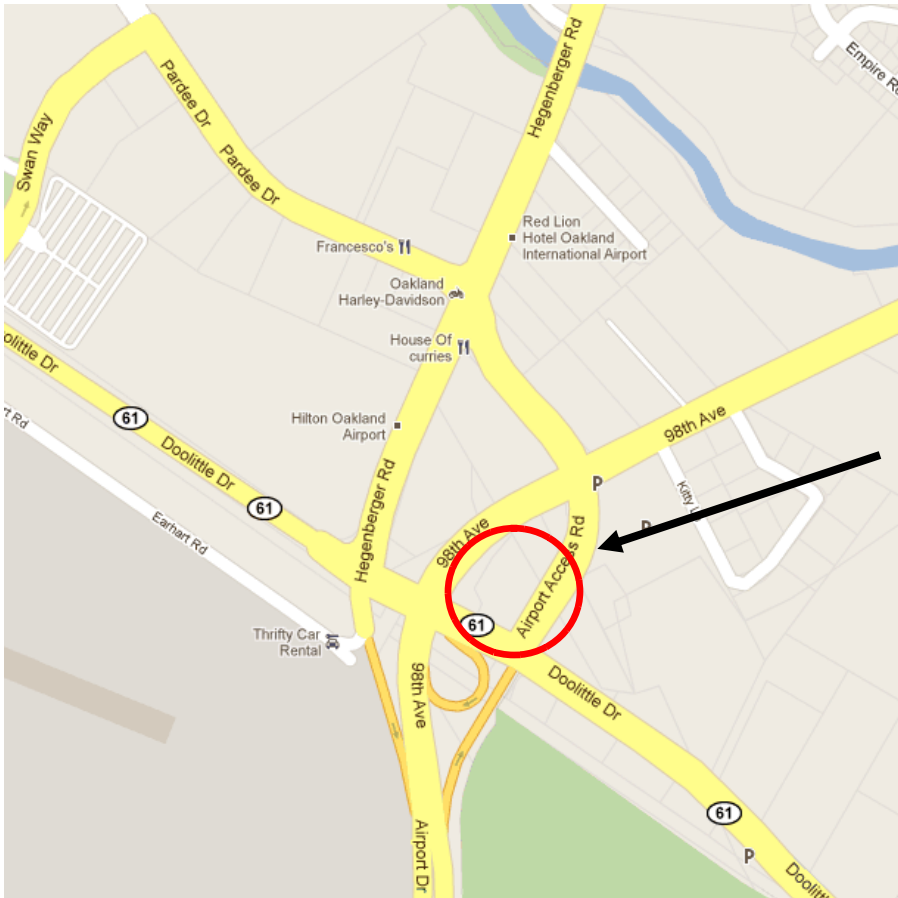

On Wednesday, October 19, 2011 construction crews will begin conducting utility relocation work to move conflicting underground lines in the field just north of Doolittle Drive between Airport Access Road and 98th Avenue. The work may require temporary lane closures and shifting of traffic on Airport Access Road through December 2011.

You may notice workers wearing protective gear while performing the relocation work because the area is known to contain hazardous materials. Crews will be following all required measures to satisfy environmental regulations and protect individuals in the area.

General work hours are 7 am to 7 pm Monday through Friday. The work activities will include but are not limited to:

- Placement of traffic signage and temporary closure of lanes on affected streets
- Crews using excavators and personnel vehicles to access work areas
- Cutting of concrete and intermittent jackhammering
- Monitoring of noise and dust to meet local regulations

Throughout construction you can expect lane closures and traffic impacts in the area and construction related noise, dust and inconvenience. We will attempt to keep these disruptions to a minimum and will provide advance notice of activities whenever possible. Please watch for notices regarding future construction activities and signs with safety information. We appreciate your patience and cooperation during this work.

**Utility Relocation Work
Impact Zone**

Work Area: Field just north of Doolittle Drive, between 98th Avenue and Airport Access Road

Traffic Impacts: Airport Access Road and Doolittle Drive
