Construction Notification #26

Guideway Truss Installation

Hegenberger Road between

Hegenberger Loop and

Airport Access Road/Pardee Drive

June 2012

The Oakland Airport Connector (OAC) project will soon begin to install the system's elevated steel truss guideway along Hegenberger Road between Hegenberger Loop and Airport Access Road/Pardee Drive. In 2011 the system's guideway foundation and column structures were constructed, in preparation for the guideway's installation.

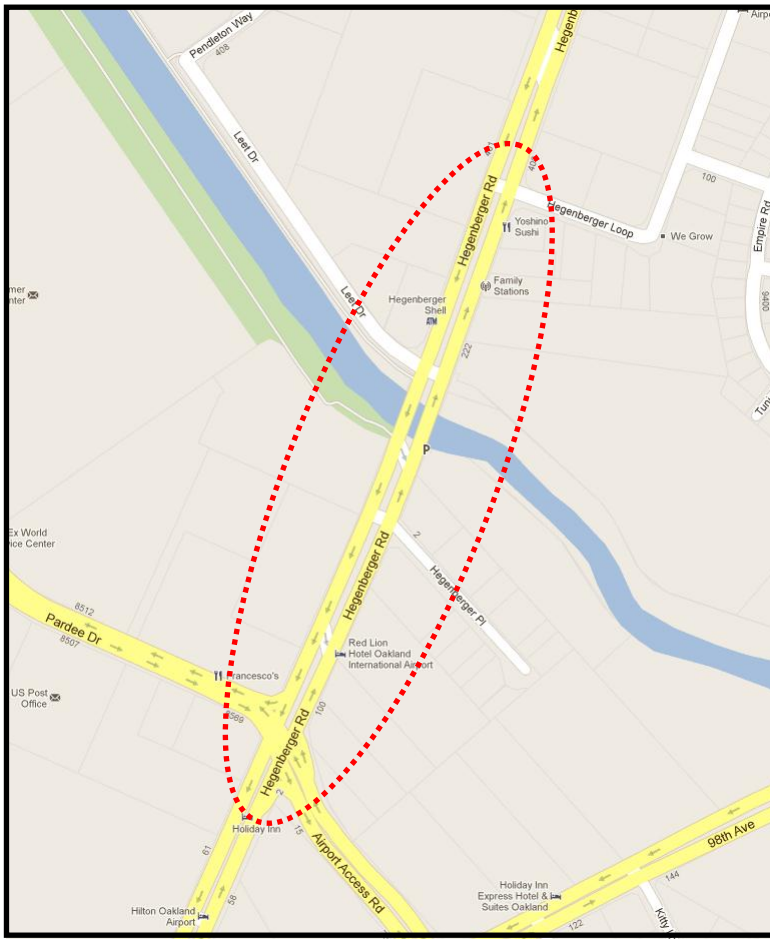

The public should be aware of the following construction impacts:

- Lane reconfigurations, lane closures and shifting of traffic on Hegenberger Road between Hegenberger Loop and Airport Access Road/Pardee Drive
- Large equipment and materials being transported and installed overhead
- Construction-related noise and light from the truss installation process

Truss installation will be performed at night from 9 pm to 5 am Monday through Sunday. However, other construction activities may be performed from 7 am to 7 pm Monday through Saturday.

Noise, dust and vibration levels will be monitored and all efforts will be taken to minimize these and other disruptions to the community. Stormwater pollution prevention plans are also in place to mitigate the project's environmental impacts. Please watch for notices regarding future construction activities and signs with safety information.

We appreciate your patience and cooperation during this work.
