Construction Notification #38

Guideway Installation at the Intersection of Hegenberger Road, Airport Access Road and Pardee Drive

July 2013

The Oakland Airport Connector (OAC) project is under construction in various locations throughout the Hegenberger Road business corridor. In 2011 and 2012 the project constructed the system's concrete foundations and columns in the area, installed the majority of the steel guideway that the OAC vehicles will travel on, and made significant progress on the assembly of two new stations and a maintenance facility. This summer the project will continue to install the guideway along Hegenberger Road, at the intersection of Airport Access Road and Pardee Drive.

Please note the following impacts during construction:

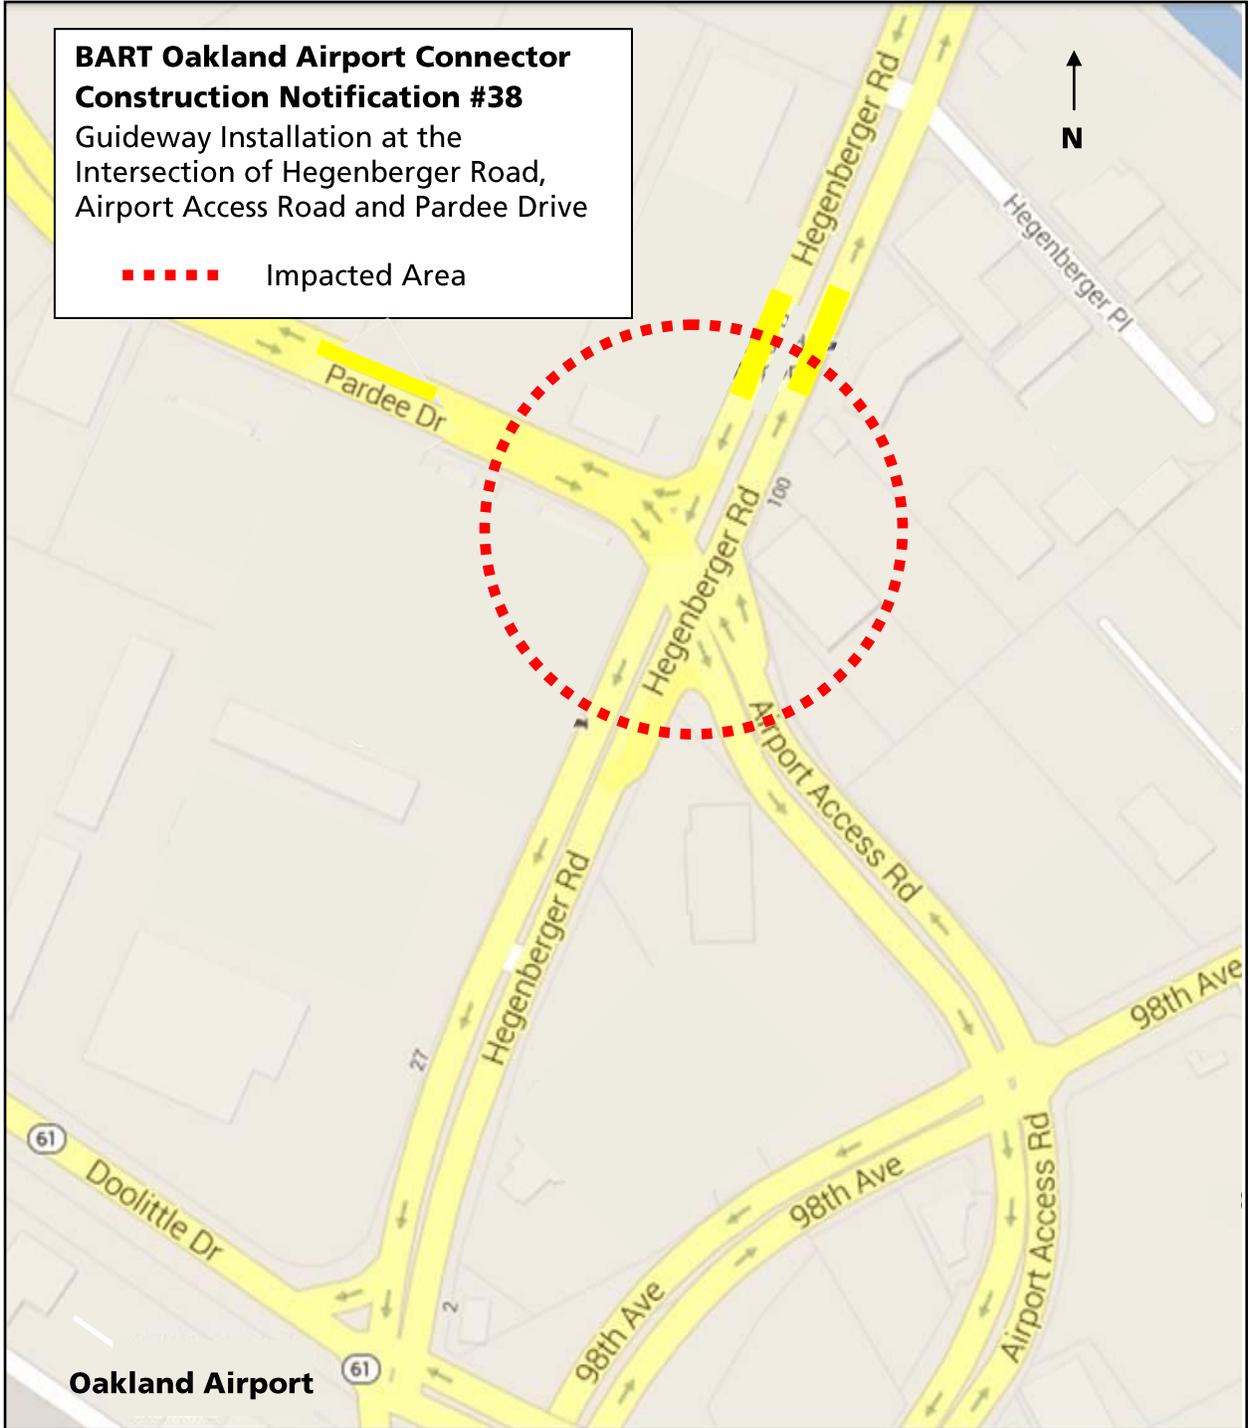

- **Road closures: Hegenberger Road, Airport Access Road and Pardee Drive will have all vehicle traffic lanes closed intermittently, where the roads intersect, Monday through Friday between 9 pm and 5 am.**
- **Lane closures: Hegenberger Road, Airport Access Road and Pardee Drive will have some vehicle traffic lanes reconfigured or closed, where the roads intersect, Monday through Saturday from 7 am to 7 pm and 9 pm to 5 am.**
- **Large equipment and materials transported and installed overhead**
- **Construction-related noise and light**

See the exhibit on the back of this page for a map of the impacted area. Please follow all posted detour signs and other notices regarding construction activities and safety information. We appreciate your patience and cooperation.
