

BART Agreement Number: 6M8119
Work Plan No. B.15 - Concrete Scanning and Detection Services for M-Line and K-Line Traction Power Projects

Approval Date: 11/28/17

Scope: In order to support design and construction, this scope of work will include:

Provide field marking of conduit, rebar and other hazards buried in concrete. This would be done by painting/marketing the locations directly on the concrete surface.

Transcribing finding on BART provided drawings based on visible landmarks in the area or by photo documentation of the field markings for others to transcribe.

Prime: AECOM/TSE

Subconsultant	Amount	DBE (Y/N)	SBE (Y/N)
EXARO	\$57,391	Y	Y

Work Plan Value: \$62,435
