

BART Agreement Number: 6M8146

Approval Date: 04/15/2020

Work Plan No. B.10-01 – Project Support Services for BART-Constructed TP Projects

Scope:

This Work Plan is to provide project support services including, but not limited to, Construction Engineering, Systems Engineering, Field Engineering, Engineering Services, Inspecting, Scheduling, Planning, Coordination and Task Management services for BART-constructed traction power projects, and other Measure RR projects as needed. Parsons fully understands that upcoming BART constructed projects within Measure RR (or non-RR) will require a qualified and competent project management team to assist BART 34.5kV cable replacement, substation/transformer upgrade/replacement, 3rd rail and insulator replacement, train control UPS replacement, MPR and rectifier rehabilitation, track replacement program, and other traction power projects. This team is also capable of performing all the project management tasks mentioned in this work plan on non-traction power projects as requested by BART.

Prime: Parsons

Subconsultant: None

Total Work Plan Value: \$997,617
