

# Warm Springs BART West Access Bridge & Plaza

## Summary of Activity

**Construction of a pedestrian bridge connecting to the West Side of the Warm Springs / South Fremont BART Station**

## Estimated Completion

Spring 2020

## Impacts

- Starting around the first week of January, a barricade will be installed next to Station Agent's booth to separate the work zone from public space.
- Minor construction activities on the platform and concourse levels of the station.
- Construction noise and dust
- Single-tracking of BART trains may be required on nights / weekends to facilitate the work.

# Construction Notification #1-January 2019

## Warm Springs/South Fremont Station West Access Bridge and Plaza Project

Construction activities related to the Warm Springs BART West Access Bridge and Plaza Project will commence at the Warm Spring/South Fremont BART Station in January 2019.

The construction is being managed by the City of Fremont in coordination with BART. The Contractor is Shimmick Construction Company.

Construction activities at the station include:

- Tie-in of the West Access Bridge to the station concourse.
- Modifications to station signage, directional tile, guardrails, and the station's communications systems.

This project's construction is funded by Measure BB and the Alameda County Transportation Commission.
