

Work Plan No. B.18- Computer Systems Engineering Design Support Services**Scope:**

The work plan will provide support for BART's Computer Systems Engineering Divisions efforts to modularize and modernize its in-house Integrated Computer System (ICS) and to work with the Communication Based Train Control (CBTC) Team to architect the new systems required. ICS is the primary computer system that the Operations Control Center (OCC) uses to safely manage BART train services.

Prime: AECOM

Subconsultant	Amount	DBE (Y/N)	SBE (Y/N)
Auriga	\$255,468	Y	Y

Total Work Plan Value: \$270,455
