

BART Agreement Number: 6M8142

Approval Date: 03/04/24

Work Plan No. B.33-02 Bid Support and DSDC for M-line tunnel water intrusion repair

Scope:

Scope of services includes the following –

- Support will be required during the procurement phases of M line tunnel water intrusion repair work. Scope includes providing additional engineering support during the procurement and bid process, including but not limited to preparing contract documents and supporting documentation for BART procurement, responding to comments from BART procurement, responding to potential bidders' questions, preparing addendums, bid evaluation, and recommendation for award.
- Provide design support services during construction (DSDC) including attendance at bi-weekly progress meetings (assume 39 1 hr meetings), review and responding to RFIs, shop drawing and submittal reviews, assisting the Resident Engineer with change orders, conducting intermittent design conformance inspections during construction, substantial completion & final inspections and producing record (as built) drawings.
- Project management services during the extended project schedule for the development of the contract documents, bid process assistance and support during construction.
- Services will be required for 15TC010 – M line tunnel water intrusion remediation project.

Prime: AECOM
