

BART Agreement Number: 6M8183

Approval Date: 01/20/26

Work Plan A.15 Market Street Escalators Renovation DSDC Support

Scope:

The following DSDC tasks are included in this work plan:

- Coordination of support from team members as needed, some of whom will be subconsultants available from other Agreement Work Plans
- Submittal Review
- RFI Response
- Change Review and support with drawing and specification changes
 - Provide design and DSDC for the installation of temporary egress stairs at the Embarcadero Station from the MUNI level to the concourse level. The current design requested by BART is the placement of a new single run stair between the north platform edge and the existing escalator and immediately east of the existing central elevator.
- Field visits and inspections as requested to understand construction/design issues
- Assistance with resolution of design/construction conflicts as encountered
- Production/update of as-built documentation as work at each location is completed
- Other services as requested or required to support construction completion
- Special meetings as requested
- Other technical support as requested
