

**BART Agreement Number: 6M8147**

**Approval Date: 05/08/20**

**Revised: 05/07/26**

**Work Plan No. B.09-01 - Elevator Modernization Project Phase 1A**

**Scope:**

**2.0 SCOPE OF SERVICES**

Additional Scope of Services includes the following:

- A. Arrange, coordinate, and perform the site survey of two elevator units identified as A30-30 and A30-3 at the Coliseum Station, and to determine the existing elevator sill conditions, including the structural support system for the existing sill. Research and review of as-built drawings are also required.
- B. Prepare Contract Documents to include the sill replacement design based on the field findings.
- C. Prepare additional Contract Drawings to include the information that is typically not required for this type of project but specifically requested by the BART Engineer as part of 95% Design Review Comments.
- D. Modify the Engineer's Estimate to incorporate the sill replacement.
- E. Attend meetings to review SCADA and LiftNet scope of work with BART engineers.
- F. Prepare and present PowerPoint presentation for overall project scope of work.
- G. Work associated with preparation of an IFB set is not included in this Work Plan.
