

JOIN THE DISCUSSION

BART wants to share our vision for the Station Modernization of the 19th St/Oakland Station Modernization.

BART is advancing a Station Modernization Program that will invest resources and efforts into the existing station to advance transit ridership and enhance the quality of life in and around the stations.

As part of the Station Modernization effort, BART is advancing a design that includes improvements to upgrade and modernize the station's function, safety, capacity, sustainability, and appearance, and improve the customer and employee experience.

The Station Modernization will include art opportunities in different areas of the station. Come offer your ideas for inspiration and themes for the art and learn about the Call for Artists process.

Please join us to learn more about the planned improvements and construction timeline.
