# El Cerrito Plaza Station: Home Locations of BART Riders by Mode

2015 BART Station Profile Study (weekday). Data are weighted to represent average weekday ridership. Weighted points are scattered around actual origin point. Scattering process may result in points appearing in bodies of water on some maps. The "Drive alone / carpool" category includes motorcycle, and "Drop off / taxi / other" includes app-based ridesharing services like Uber and Lyft.

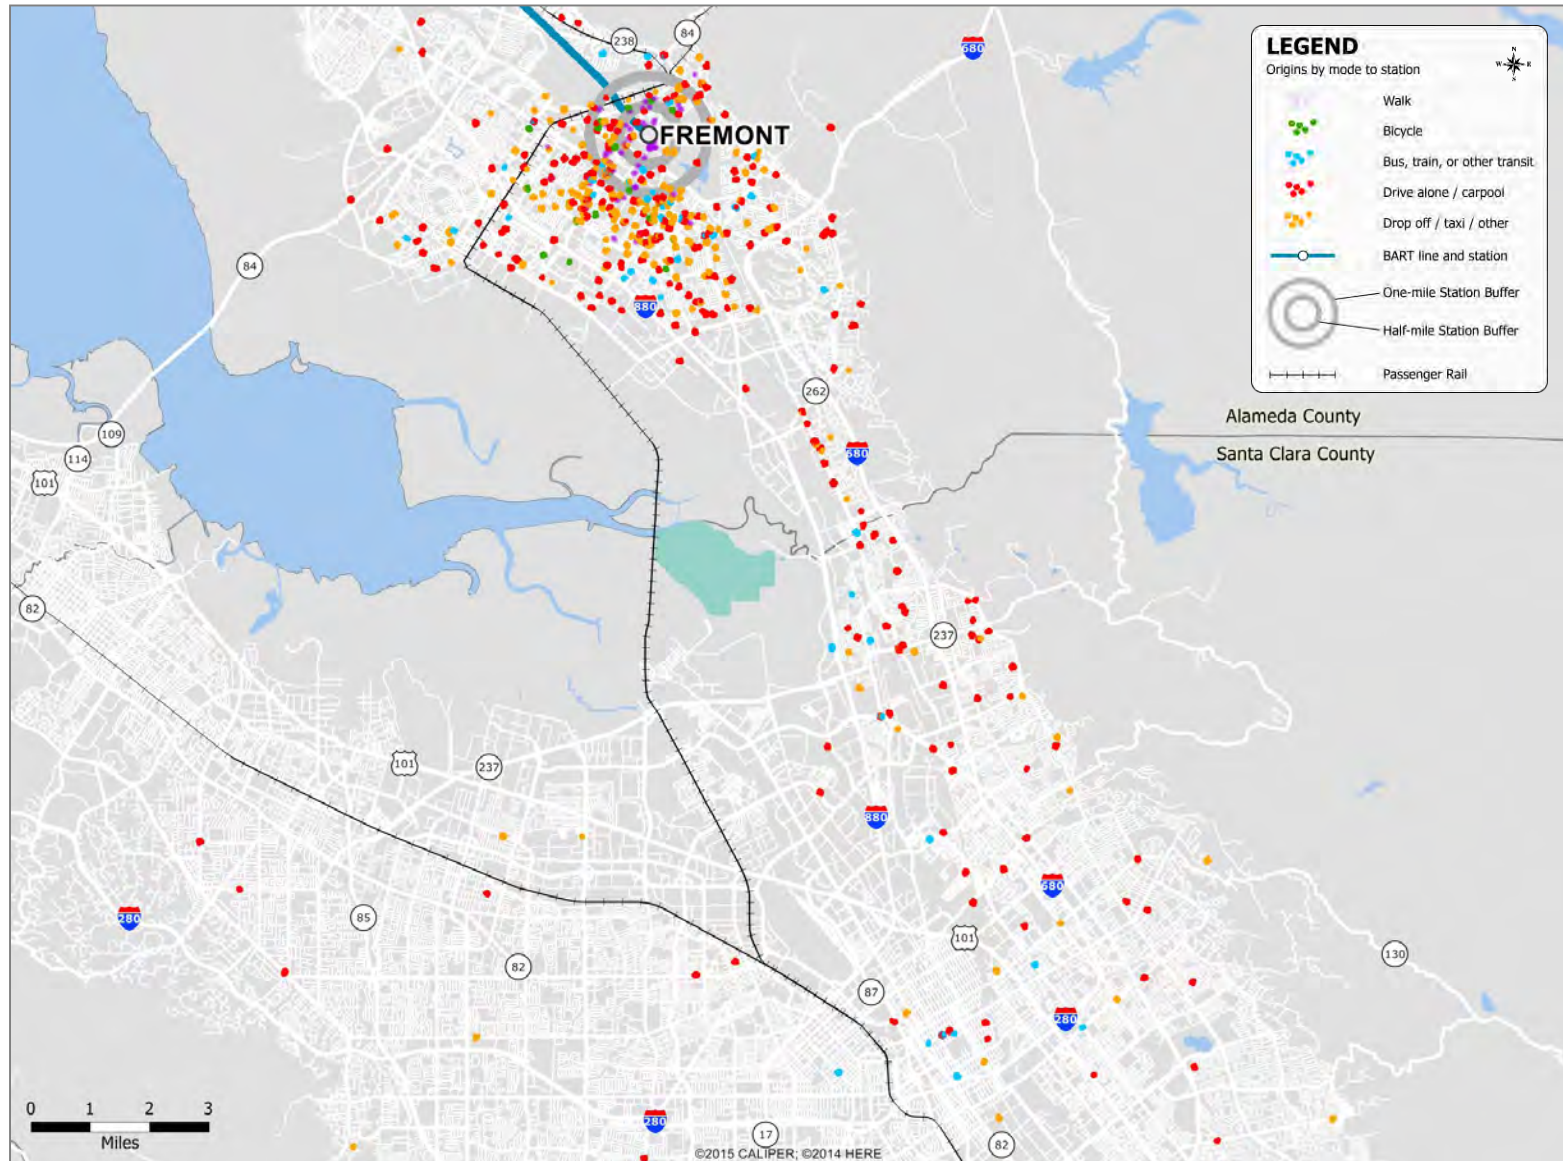

# Embarcadero Station: Home Locations of BART Riders by Mode

2015 BART Station Profile Study (weekday). Data are weighted to represent average weekday ridership. Weighted points are scattered around actual origin point. Scattering process may result in points appearing in bodies of water on some maps. The "Drive alone / carpool" category includes motorcycle, and "Drop off / taxi / other" includes app-based ridesharing services like Uber and Lyft.

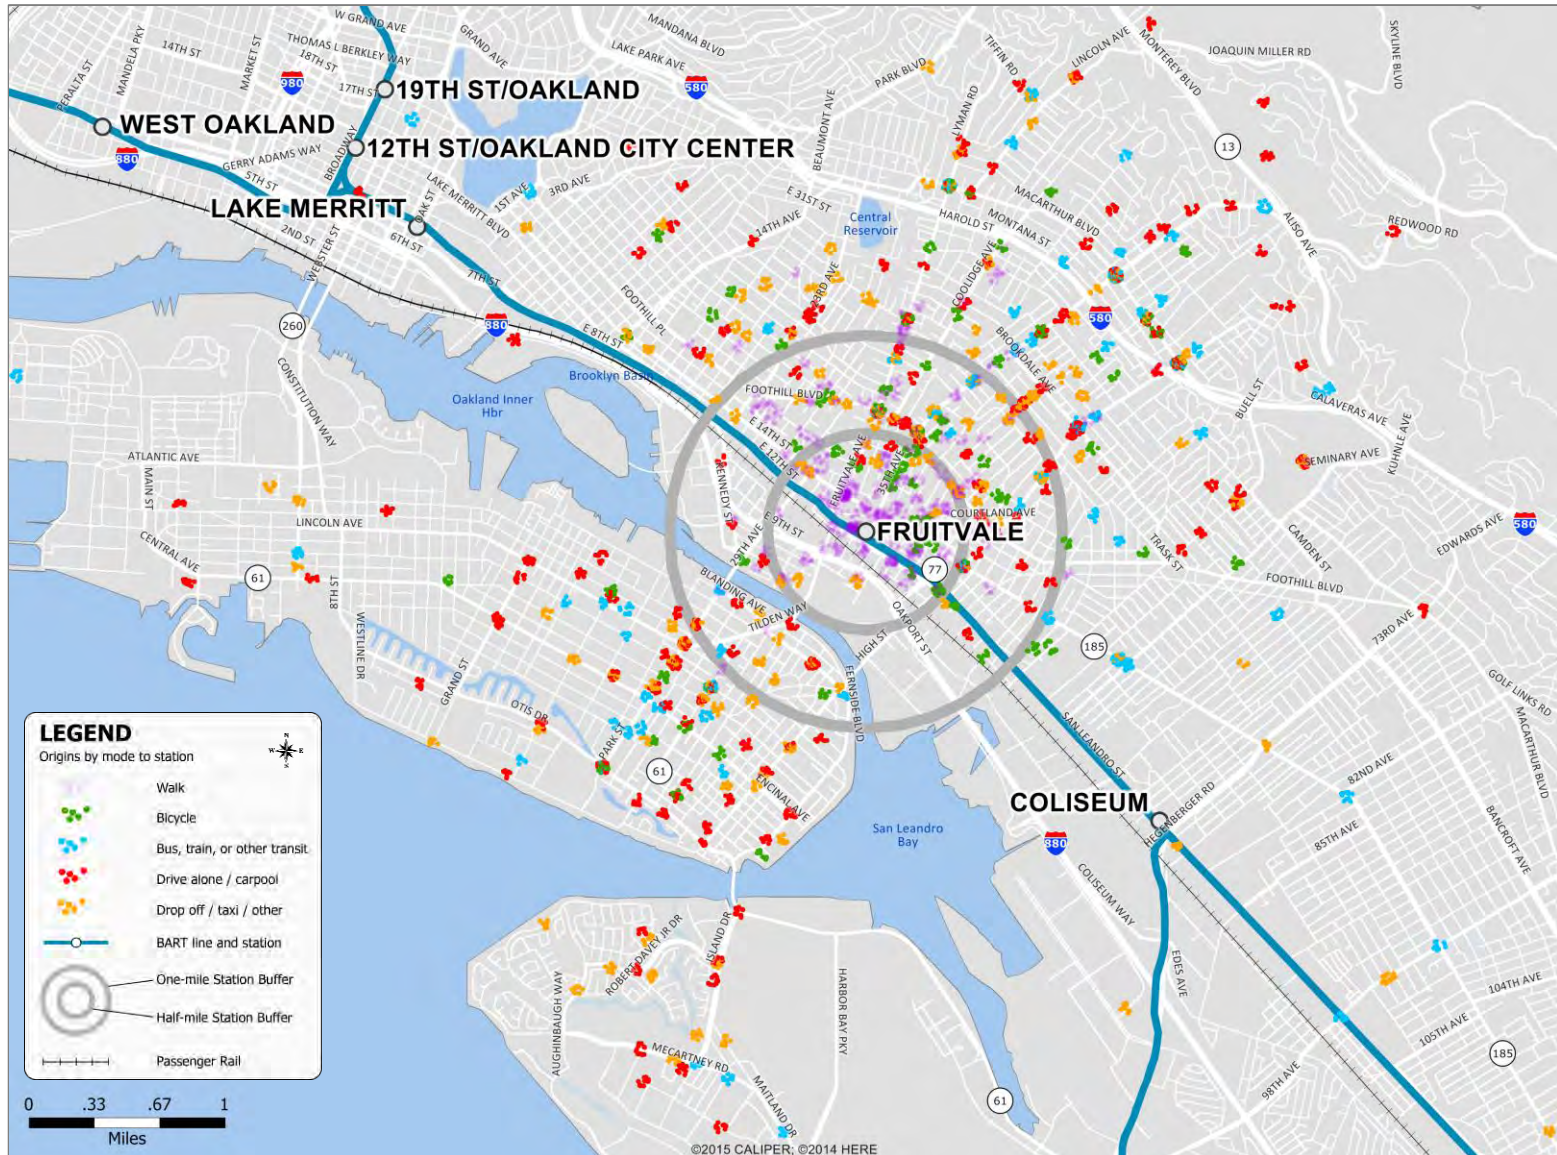

# Fremont Station: Home Locations of BART Riders by Mode

2015 BART Station Profile Study (weekday). Data are weighted to represent average weekday ridership. Weighted points are scattered around actual origin point. Scattering process may result in points appearing in bodies of water on some maps. The "Drive alone / carpool" category includes motorcycle, and "Drop off / taxi / other" includes app-based ridesharing services like Uber and Lyft.

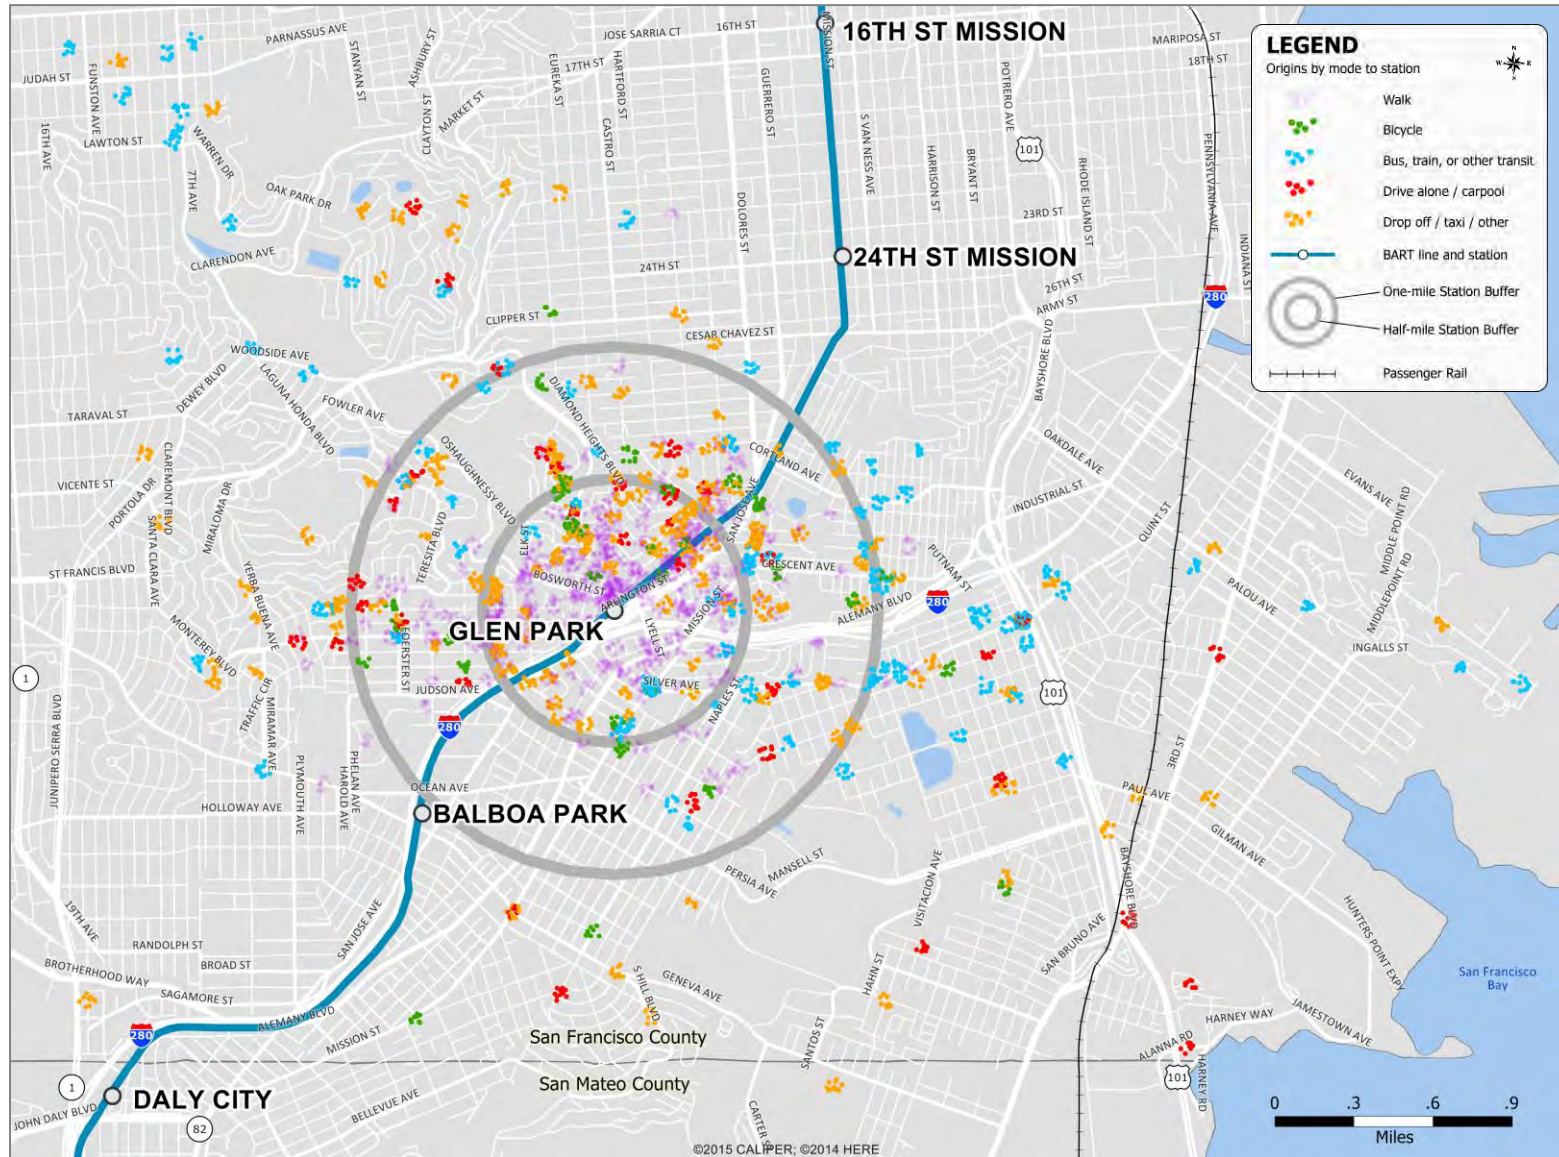

## Fruitvale Station: Home Locations of BART Riders by Mode

2015 BART Station Profile Study (weekday). Data are weighted to represent average weekday ridership. Weighted points are scattered around actual origin point. Scattering process may result in points appearing in bodies of water on some maps. The "Drive alone / carpool" category includes motorcycle, and "Drop off / taxi / other" includes app-based ridesharing services like Uber and Lyft.

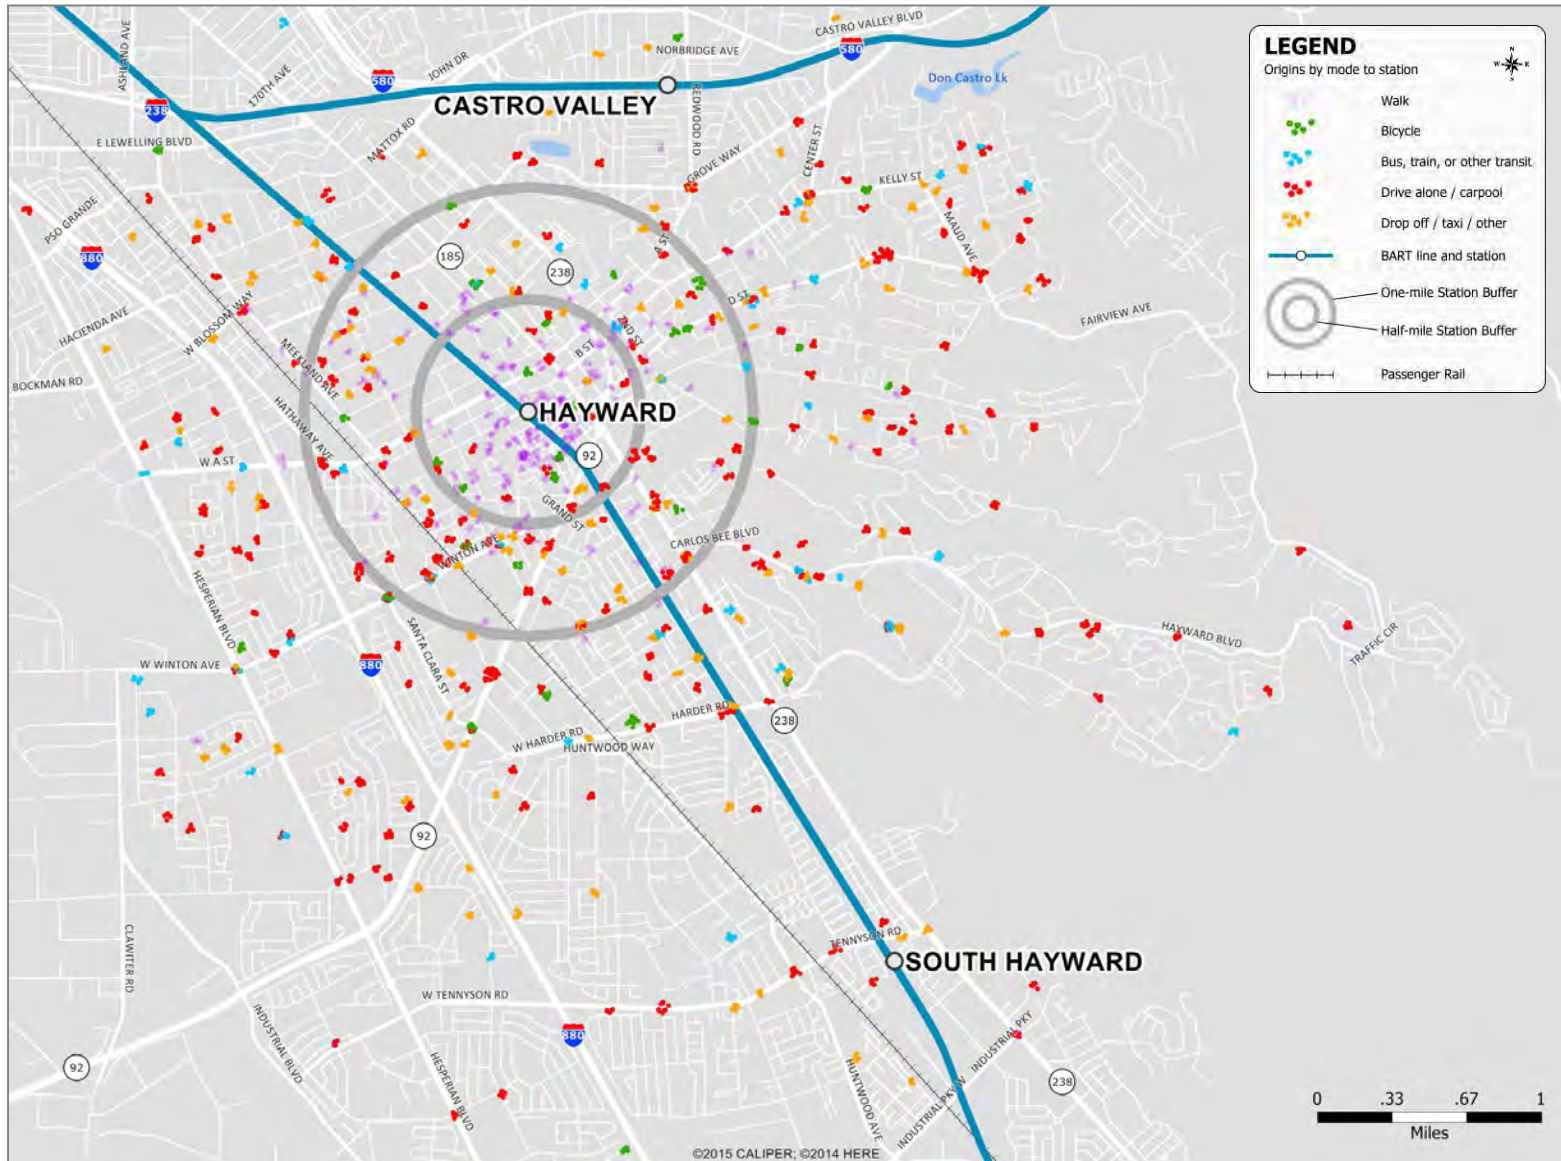

# Glen Park Station: Home Locations of BART Riders by Mode

2015 BART Station Profile Study (weekday). Data are weighted to represent average weekday ridership. Weighted points are scattered around actual origin point. Scattering process may result in points appearing in bodies of water on some maps. The "Drive alone / carpool" category includes motorcycle, and "Drop off / taxi / other" includes app-based ridesharing services like Uber and Lyft.

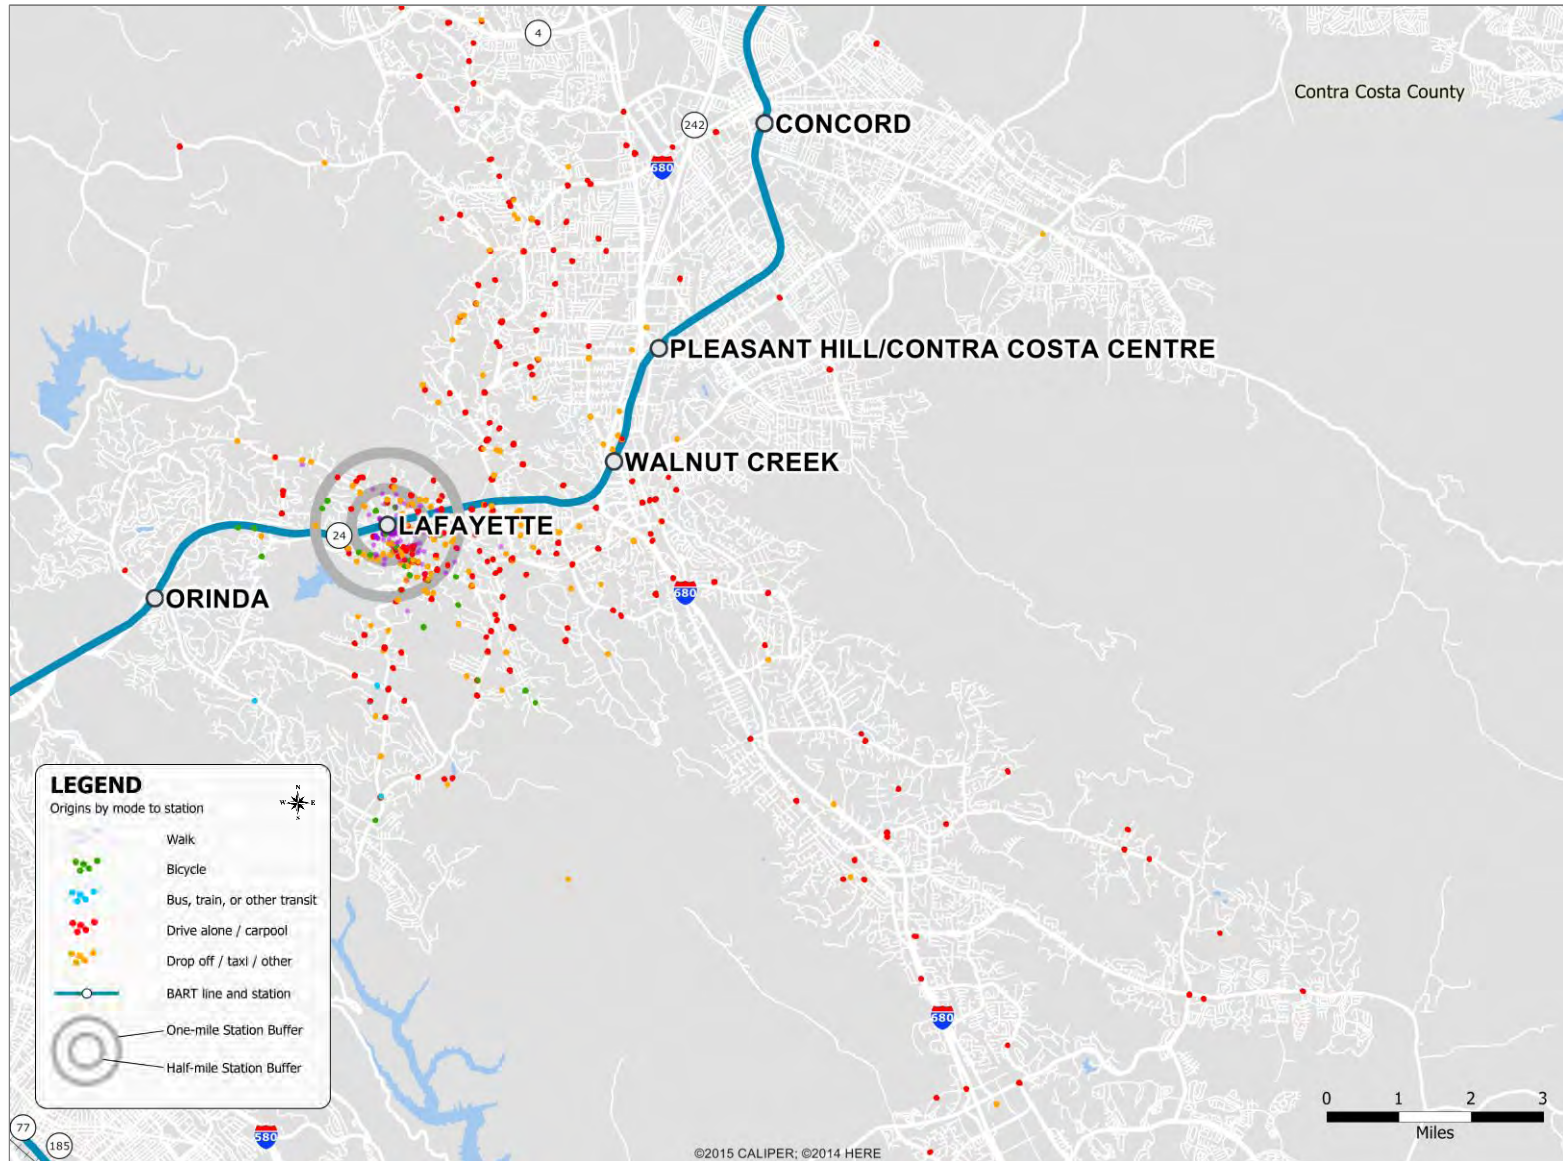

# Hayward Station: Home Locations of BART Riders by Mode

2015 BART Station Profile Study (weekday). Data are weighted to represent average weekday ridership. Weighted points are scattered around actual origin point. Scattering process may result in points appearing in bodies of water on some maps. The "Drive alone / carpool" category includes motorcycle, and "Drop off / taxi / other" includes app-based ridesharing services like Uber and Lyft.

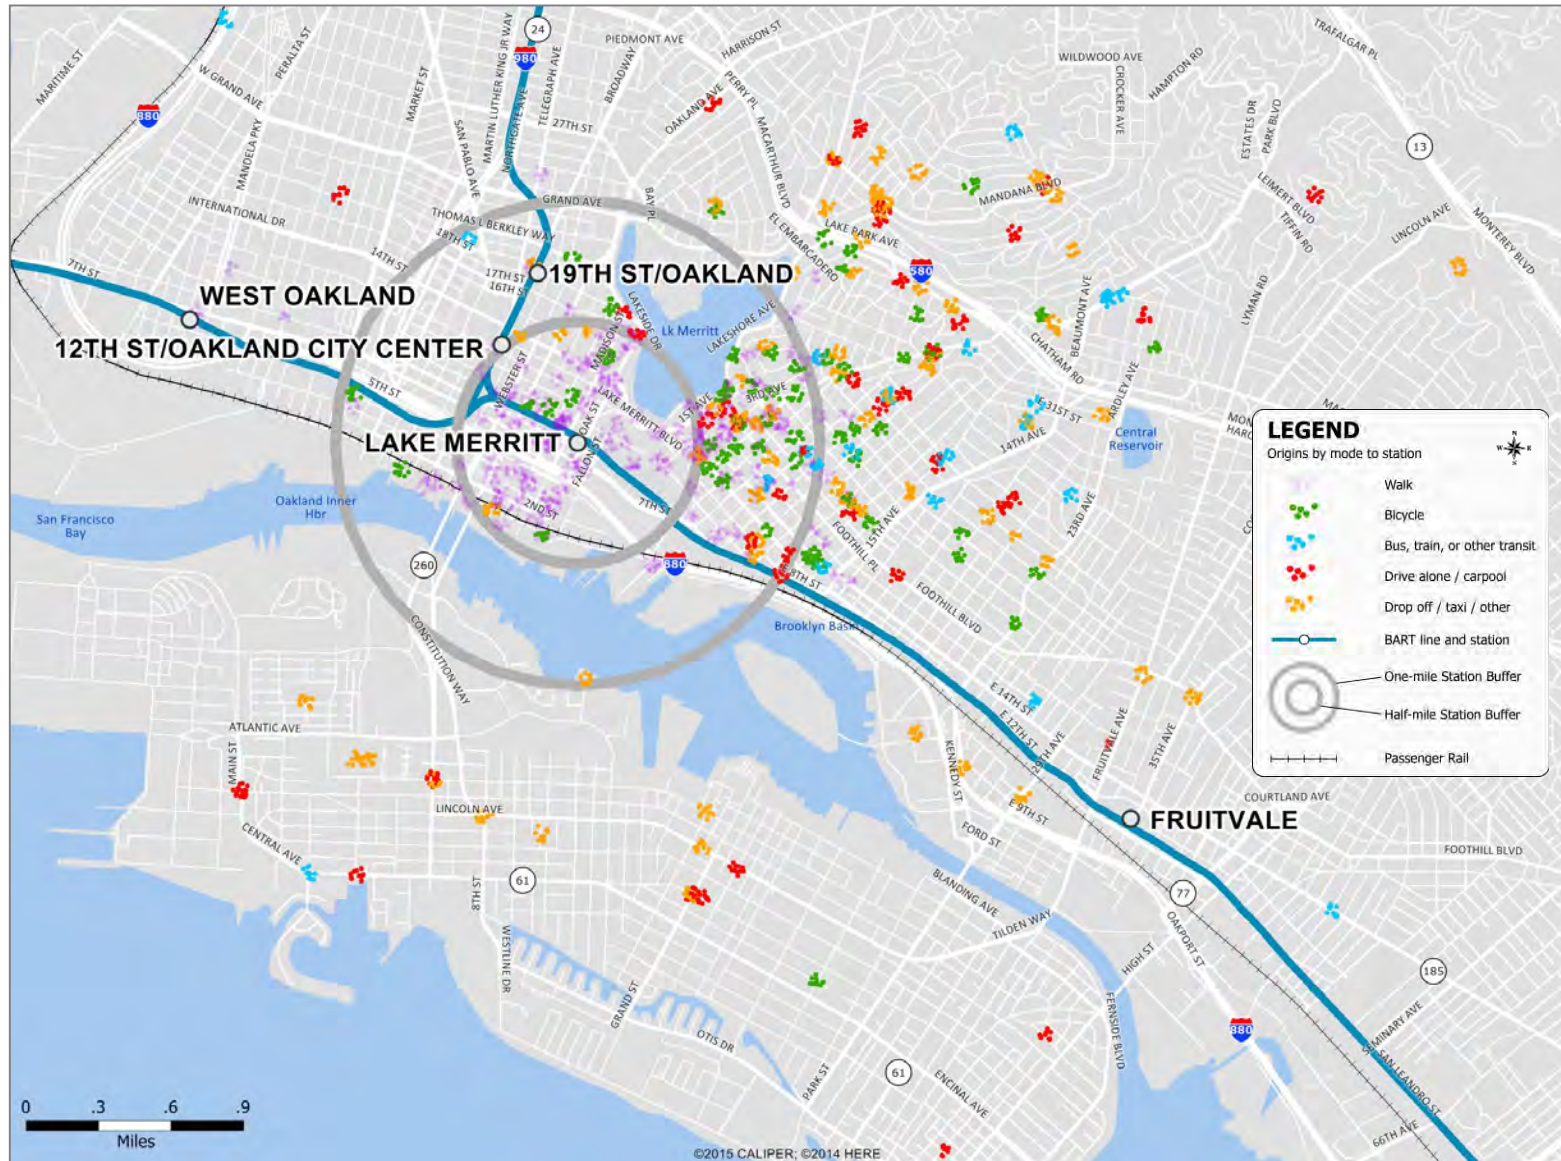

# Lafayette Station: Home Locations of BART Riders by Mode

2015 BART Station Profile Study (weekday). Data are weighted to represent average weekday ridership. Weighted points are scattered around actual origin point. Scattering process may result in points appearing in bodies of water on some maps. The "Drive alone / carpool" category includes motorcycle, and "Drop off / taxi / other" includes app-based ridesharing services like Uber and Lyft.

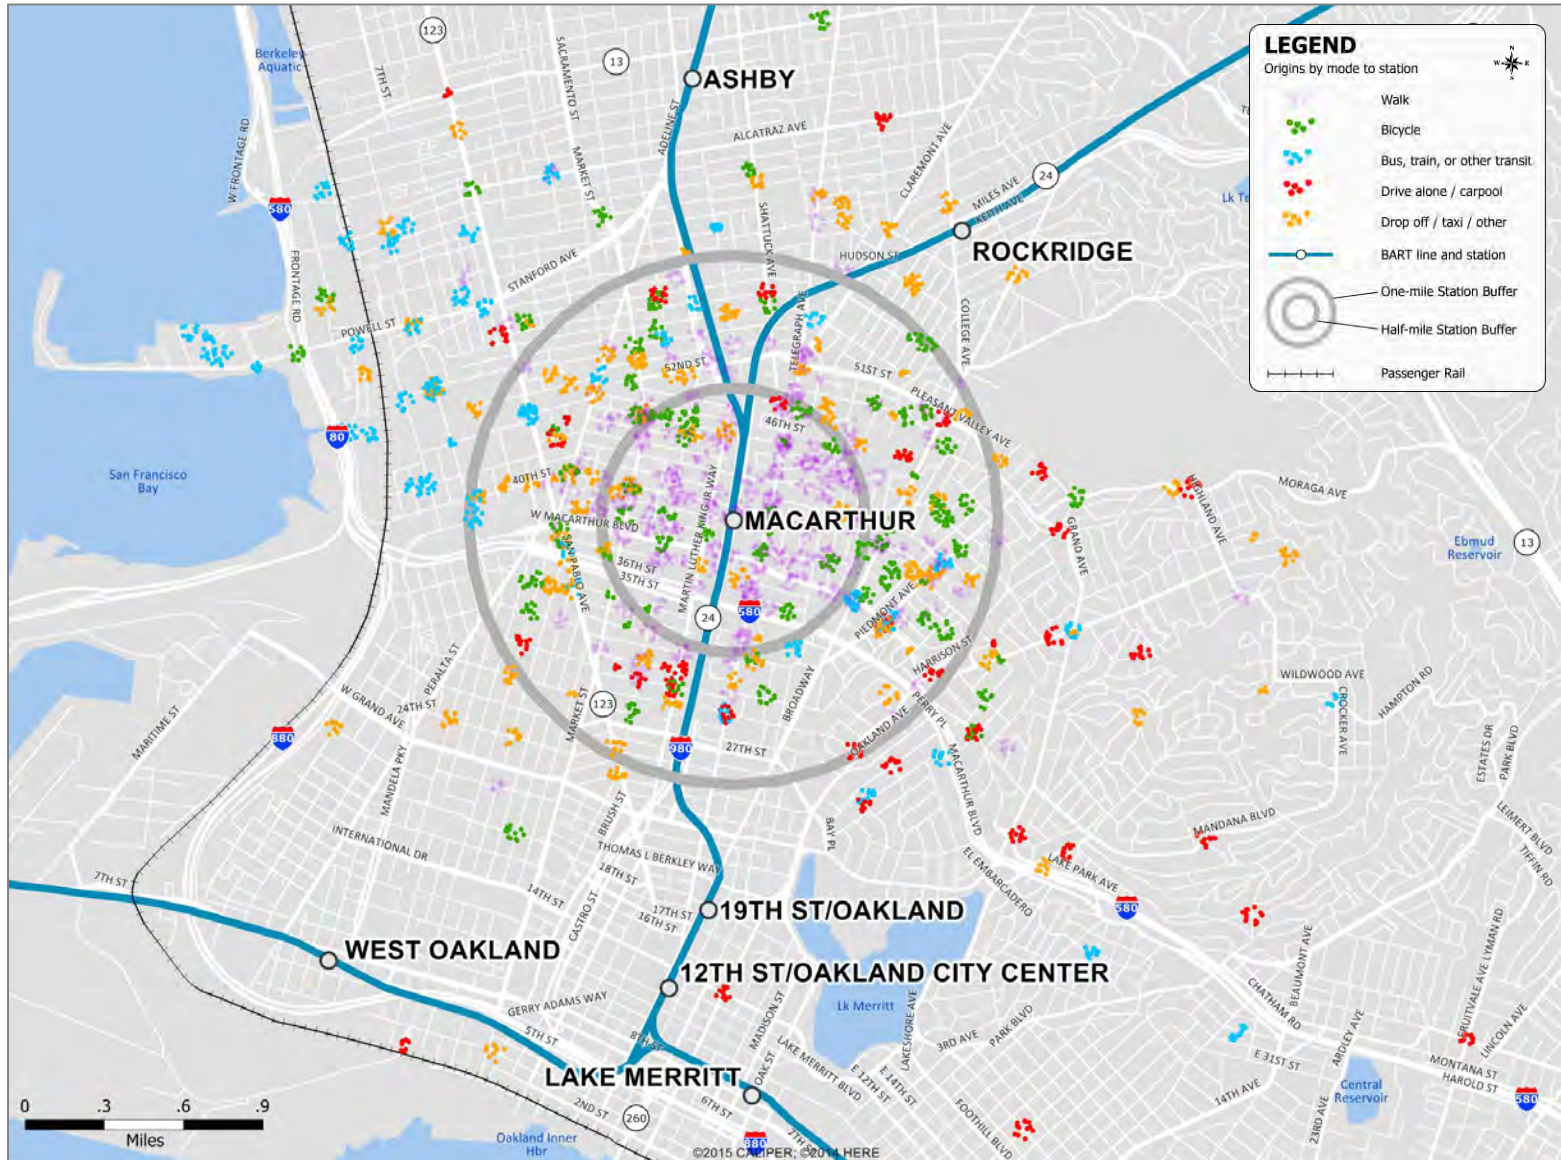

# Lake Merritt Station: Home Locations of BART Riders by Mode

2015 BART Station Profile Study (weekday). Data are weighted to represent average weekday ridership. Weighted points are scattered around actual origin point. Scattering process may result in points appearing in bodies of water on some maps. The "Drive alone / carpool" category includes motorcycle, and "Drop off / taxi / other" includes app-based ridesharing services like Uber and Lyft.

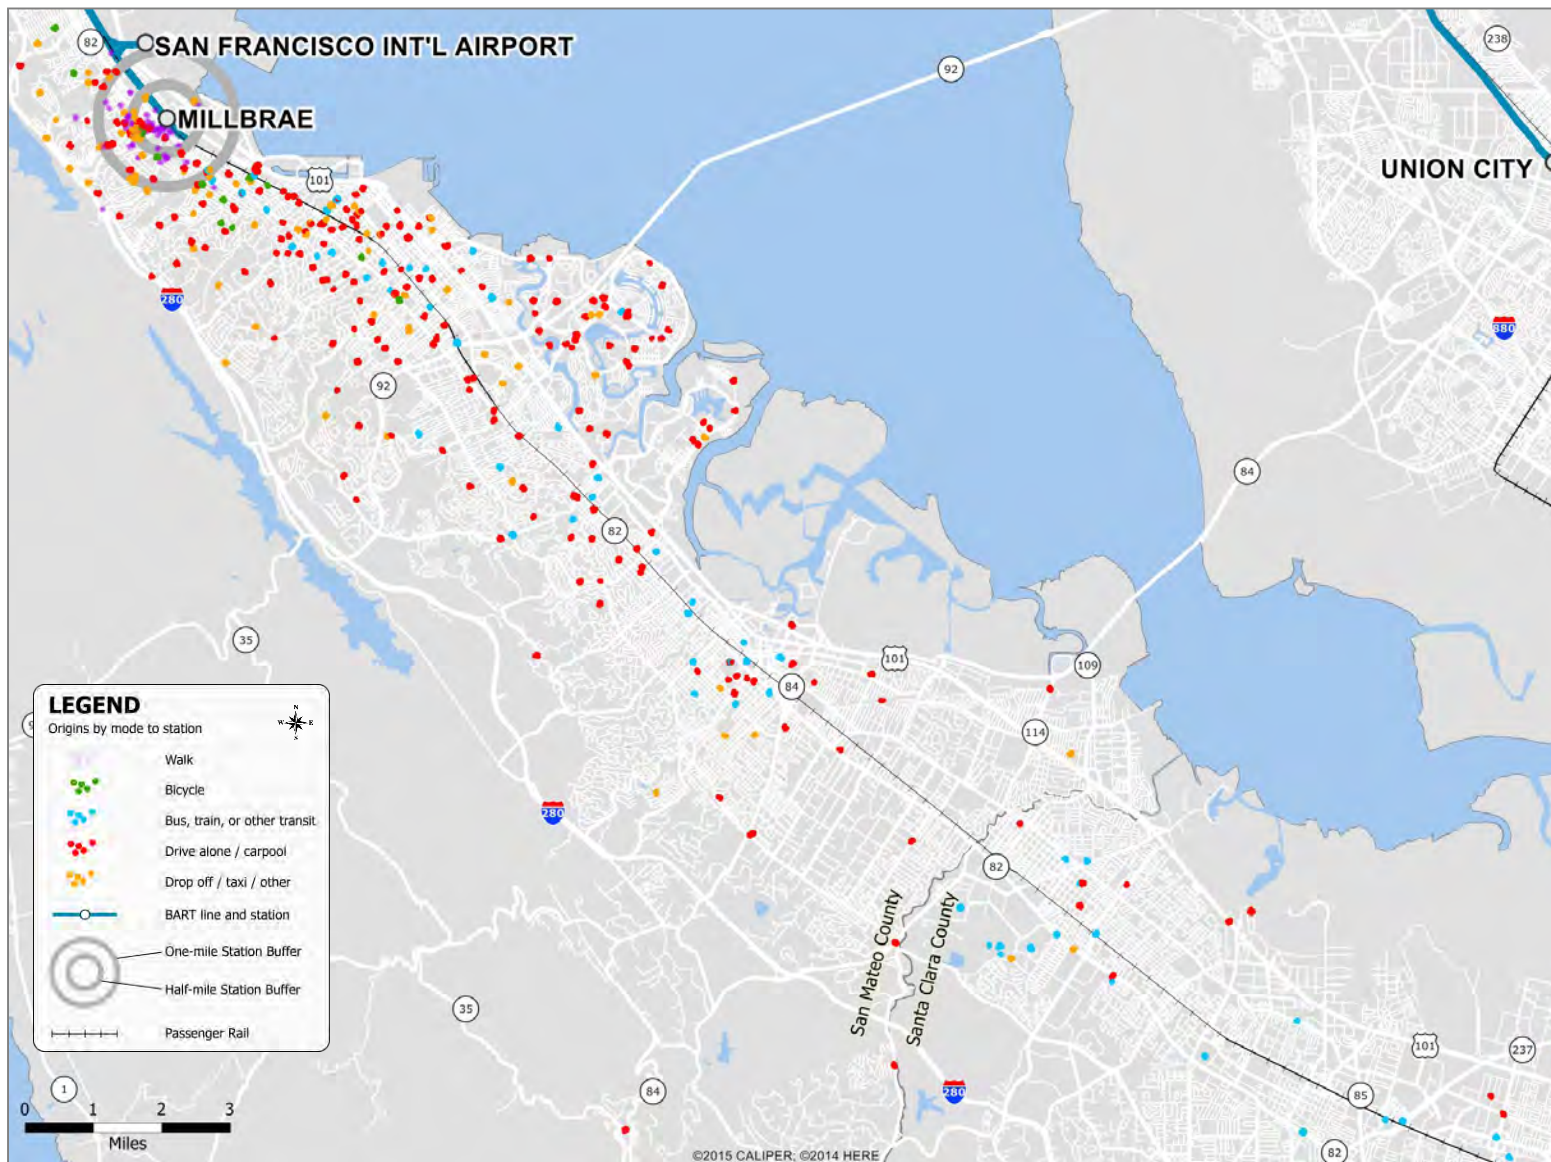

# MacArthur Station: Home Locations of BART Riders by Mode

2015 BART Station Profile Study (weekday). Data are weighted to represent average weekday ridership. Weighted points are scattered around actual origin point. Scattering process may result in points appearing in bodies of water on some maps. The "Drive alone / carpool" category includes motorcycle, and "Drop off / taxi / other" includes app-based ridesharing services like Uber and Lyft.

# Millbrae Station: Home Locations of BART Riders by Mode

2015 BART Station Profile Study (weekday). Data are weighted to represent average weekday ridership. Weighted points are scattered around actual origin point. Scattering process may result in points appearing in bodies of water on some maps. The "Drive alone / carpool" category includes motorcycle, and "Drop off / taxi / other" includes app-based ridesharing services like Uber and Lyft.

# Montgomery Station: Home Locations of BART Riders by Mode

2015 BART Station Profile Study (weekday). Data are weighted to represent average weekday ridership. Weighted points are scattered around actual origin point. Scattering process may result in points appearing in bodies of water on some maps. The "Drive alone / carpool" category includes motorcycle, and "Drop off / taxi / other" includes app-based ridesharing services like Uber and Lyft.
