

EARTHQUAKE SAFETY PROGRAM

Construction Update at Fruitvale Station

September 2018

Dear Fruitvale Station/Village Community,

CONSTRUCTION DETAILS

Summary of Activity

Earthquake retrofit construction of columns and fixtures in and around the Fruitvale Station near 35th Avenue is underway. The retrofit work will help BART structures better withstand damage from future earthquakes.

Estimated Start

September 2018

Estimated Duration

4 months

Impacts

- Intermittent lane and sidewalk closures/detours and traffic delays
- Temporary parking closure in the Fee lot, located south of 35th Avenue at Fruitvale Station
- Temporary and intermittent increase in noise, dust and traffic related to construction work inside and around the station

General Work Hours

Monday-Friday, 7 am to 7 pm, limited night and emergency work as needed

As part of BART's systemwide Earthquake Safety Program, seismic retrofit work at the Fruitvale Station continues; and starting in September, moves to the northside of 35th Avenue. Construction work will be performed on each column that holds up the BART trackway under the alignment in the pedestrian sidewalk. This work location runs parallel to 35th Avenue on the north side of the street, located on the back side of the station entrance, near the bus bay. Please see the diagram on the back of this bulletin for the location of construction.

Work areas will be fenced in, and you will see construction equipment accessing the site such as scissor lifts, dump trucks, drill rigs and scaffolding. During this construction, pedestrian access will be slightly detoured with directional signage. Please proceed around construction areas with caution and watch for signs with safety information and other notices. Additionally, expect some traffic and parking impacts from time to time. Construction at south of 35th Avenue, in the parking lot is near completion. Temporary closure of approximately six (6) parking spots in the BART Fee lot will remain. Please note that vehicles not moved from areas that have been posted with "No Parking" signs will be subject to ticketing and/or towing. Noise and dust will be monitored, and local regulations will be enforced to minimize any inconveniences.

Additionally, seismic retrofit work on columns and fixtures located inside the Fruitvale Station is expected to begin in September. A separate notice will be provided when the schedule is confirmed. Please watch for additional notices regarding upcoming construction. (*Please note that a separate, private, residential construction is also underway on the southeast side of the station just south of 35th Avenue, known as Fruitvale Village Phase II*).

We appreciate your patience and cooperation during this work. As always, safety is BART's top priority. Our aim is to complete seismic retrofit work as quickly as possible, while maintaining BART service. Fruitvale Station will REMAIN OPEN for BART riders during construction.

If you need language assistance services, please call BART's Transit Information Center at (510) 465-2278.

如需語言援助服務，請致電 BART 公共交通資訊中心，電話號碼為 (510) 465-2278.

Si necesita servicios de asistencia de idioma, llame al centro de información de tránsito del BART al (510) 465-2278.
