On behalf of the Earthquake Safety Program, **THANK YOU FOR YOUR PATIENCE AND COOPERATION** as we work on seismic retrofit construction at your station. Over the final two weeks of 2018, light crews will continue work inside the Fruitvale Station and near its main entrance. Crews will return after the first of the new year 2019 to continue the vital work at multiple locations inside and outside Fruitvale station at a robust pace. This activity is related to the BART systemwide Earthquake Safety Program. **Fruitvale Station will REMAIN OPEN for BART riders during construction.**

Please be advised that other work, not related to earthquake safety, is also occurring in the area. As always, safety is BART's top priority. Our aim is to complete seismic retrofit work as quickly as possible, while maintaining BART service.

We wish you and your families a safe, happy and peaceful holiday season. Happy New Year 2019!
