

EARTHQUAKE SAFETY PROGRAM

ALLOW ADDITIONAL TIME – NEW DETOURS INSIDE COLISEUM STATION START FRIDAY, APRIL 5

Dear Customer:

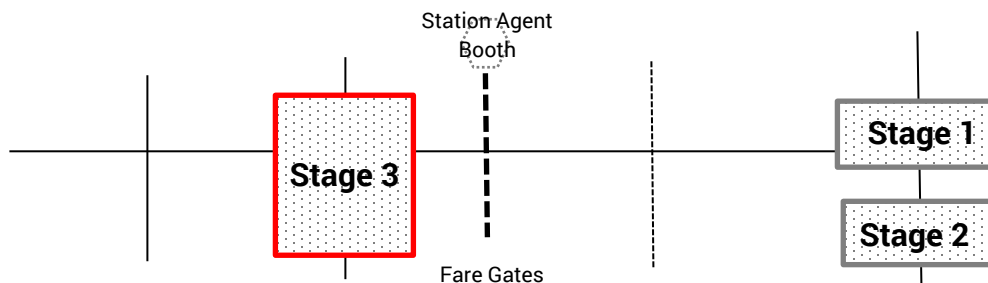

On Friday, April 5, 2019, starting at approximately 8:00 am, Earthquake Safety construction crews will begin installation of a plywood structure (Stage 3 location) to create an enclosed work barrier for seismic retrofit construction. The walls will go up first, and approximately midday, during nonpeak hours, the ceiling will be installed creating an 8-foot wide temporary pedestrian tunnel for travel inside the Station as part of Stage 3 construction. This work is part of the BART systemwide Earthquake Safety Program, which will require construction activity at various locations and stages inside and outside the patron area. Work will take place during the daytime with some nighttime hours. On Friday, April 5 and as needed, Flaggers will be on site to assist patrons. Allow additional time for your travel inside the Station. Watch for detours and Flaggers dressed in bright yellow construction vests. See below status summary of construction stages for more information.

During overall construction, you will see heavy equipment accessing the site such as scissor lifts, drill rigs, concrete pump/hose and trucks, and temporary scaffolding/structures. Earthquake Safety construction consists of seismic retrofit work performed on each footing and pier cap (a beam connecting two columns) that serves to support the BART trackway under the alignment.

Stage 1 Closure: Construction continues behind the escalator located on the south-end of the Concourse for approximately 2 more months. The escalator is open for patron use to and from the Platform.

Stage 2 Closure: Construction requires temporary closure of the southwest stair well for approximately 4-6 months.

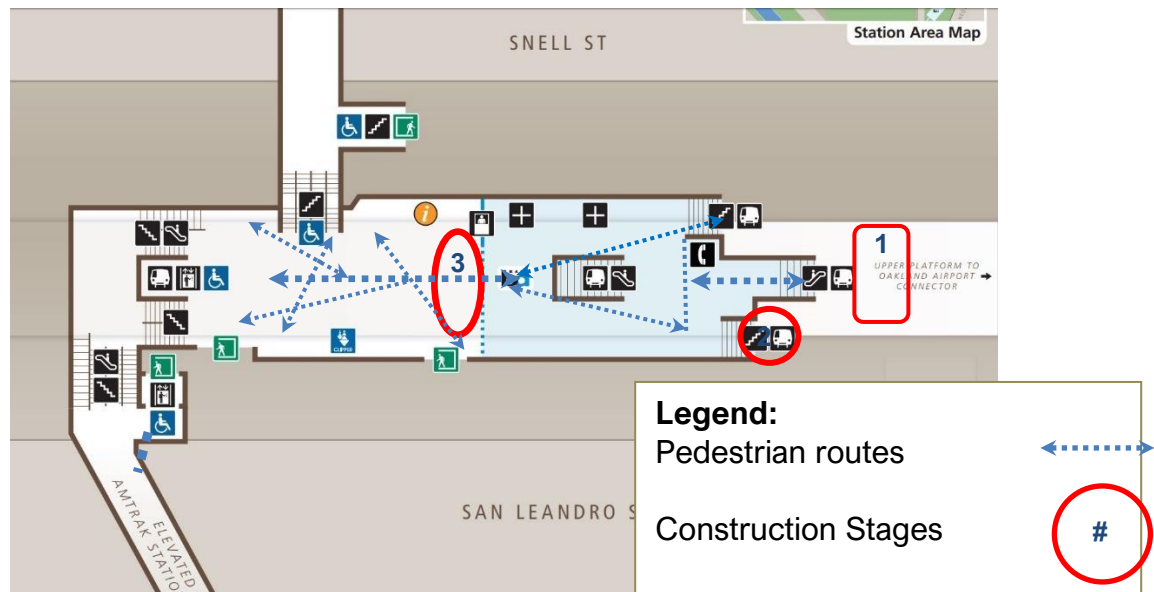

Stage 3 Closure: Construction has begun and a temporary, plywood enclosure structure will be installed on Friday, April 5, starting at approximately 8:00 am and will continue during non-peak hours. This is in the area located north of the fare gates and west of the pedestrian tunnel. Construction at this location is expected to continue for approximately 4-6 months and will include heavy drilling activities that will make noise. Sound barrier blankets will be in place to minimize noise levels. Noise, dust and odors will be monitored, and local regulations will be enforced. Allow additional time for travel and watch for detours, directional/informational signs. **All dates are approximate and subject to change*

EARTHQUAKE SAFETY PROGRAM

Construction Activity inside Coliseum Station

Add fare and parking machines, restrooms, elevators, escalators, and stairs – *except the southwest stairwell, will remain accessible (open) during Stages 1, 2 and 3 construction.* **Please watch for directional signs and allow for additional travel time through the Concourse and between the Concourse and Platform.** Similar earthquake safety retrofit construction is underway outside Coliseum Station and at Fruitvale Station. Construction outside Coliseum Station on both the north and south-end of the Station, mainly off San Leandro Street continues. Temporary relocation of ADA and BART parking located on the westside (San Leandro Street side) of the station continues. Construction outside the station on the south-end is nearing completion.

We recognize the inconvenience and appreciate your patience and cooperation during this work. As always, safety is BART's top priority. Please proceed around construction areas with caution and watch for signs with safety information and other notices. Please be advised that changes/modifications may be required at any time; the construction team will make every effort to minimize inconveniences. Our aim is to complete seismic retrofit work as quickly as possible, while maintaining BART service.

To contact the Earthquake Safety Program or to obtain additional information, please visit our website at www.bart.gov/earthquakesafety, email: earthquakesafety@bart.gov or call our Program Information Line at **(510) 874-7425**.

If you need language assistance services, please call BART's Transit Information Center at (510) 465-2278. Si necesita servicios de asistencia de idioma, llame al centro de información de tránsito del BART al (510) 465-2278.

如需語言援助服務，請致電 BART 公共交通資訊中心，電話號碼為 (510) 465-2278.

통역이 필요하시면, BART 수송 정보 센터 (510) 465-2278 로 전화해 주십시오.

Nếu quý vị cần các dịch vụ trợ giúp ngôn ngữ, xin gọi cho Trung Tâm Thông Tin Chuyên Chở Công Cộng của BART tại số (510) 465-2278.
