

EARTHQUAKE SAFETY PROGRAM

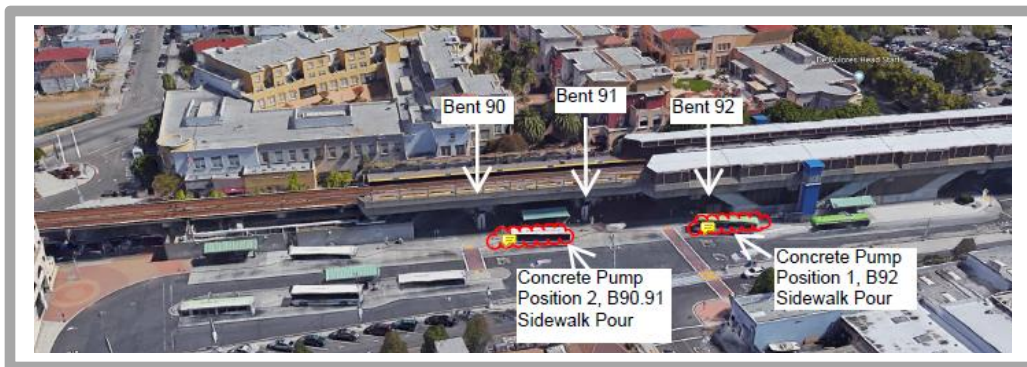

Construction Update

at Fruitvale Station – 4/25 Temp Detours

April 25, 2019

Dear Fruitvale Station Community,

BART systemwide Earthquake Safety Program, seismic retrofit construction at multiple locations inside and outside the Fruitvale Station continues and is nearing completion. Please be advised that on Friday, April 26 from approximately 5am to 12noon there will be concrete pours occurring on the north side of the Fruitvale Station entrance, creating additional temporary detours and AC Transit bus stop moves. You will see a concrete truck and concrete pump/hose temporarily stationed in the Bus Bay positioned near the main entrance for approximately 7 hours. Please see locations below:

We recognize the inconvenience and appreciate your patience and cooperation during this work. As always, safety is BART's top priority. Please pay attention to directional signage and allow additional travel time. Our aim is to complete seismic retrofit work as quickly as possible, while maintaining BART service. **Fruitvale Station REMAINS OPEN for BART riders during construction.**

To contact the Earthquake Safety Program or to obtain additional information, please visit our website at www.bart.gov/earthquakesafety or call our Program Information Line at (510) 874-7425 or email: earthquakesafety@bart.gov. Thank you again for your patience and cooperation.

If you need language assistance services, please call BART's Transit Information Center at (510) 465-2278.

如需語言援助服務，請致電 BART 公共交通資訊中心，電話號碼為 (510) 465-2278。

Si necesita servicios de asistencia de idioma, llame al centro de información de tránsito del BART al (510) 465-2278.

EARTHQUAKE SAFETY PROGRAM

Construction Update

Work Locations at Fruitvale Station

Work Area 1	Work Area 2	Work Area 3	Work Area 4
<p>Under BART alignment, near <i>Avenida de la Fuente</i>, AC Transit bus bays, and parking garage, located north and west of Fruitvale Station entrance construction activity CONTINUES AND IS NEARING COMPLETION – expected Spring 2019.</p> <p>On Friday, April 26 from approximately 5:00 am to 12:00 noon, there will be concrete pours in two locations on the northwest side of the station. You will see a concrete truck placed in the AC Transit Bus Bay along with concrete pump/hose for temporary construction activity. Please use caution and observe all signage; and allow additional travel time.</p>	<p>Inside BART Fruitvale Station in the Concourse area CONTINUES and is nearing completion. All escalators, stairs, elevators, add-fare and parking machines are accessible with some detours. Please allow additional time for travel through Fruitvale BART Station following all directional signage.</p> <p>WORK INSIDE THE STATION IS NEARING COMPLETION – expected in May 2019.</p>	<p>Under the BART alignment, outside the station, located on the north side of 35th Avenue, closest to the backside of the station building and near Bus Bay entrance, construction CONTINUES AND IS NEARING COMPLETION – expected Spring 2019.</p> <p>Note: Other non-BART Earthquake retrofit construction activity is also occurring in the area.</p>	<p>Located south of the Fruitvale Station between 35th Avenue and 36th Avenue (and Fee parking lot) construction continues and is NEARING COMPLETION – expected Spring 2019.</p> <p>Note: A separate project, Fruitvale Village Phase 2 (Transit Oriented Development – Affordable Housing) construction is actively occurring adjacent to the BART Earthquake Safety Program location between 35th and 36th Avenue.</p>

Note: During Construction, Fruitvale BART Station is **expected to remain open and accessible with some detours and directional signage**. Additionally, earthquake safety retrofit construction is occurring at Coliseum Station.
