Scope:

BART requires ongoing project management, engineering design oversight, and bid support for the following Measure RR 34.5 KV cable projects:

a. 15EJ-171, cable installation between MVS and MTW, L and R cables
b. 15EJ-172, cable installation between MVS and MBP, L and R cables
c. 15EJ-180, 15EJ-181 A Line cable installations.
d. Various contracts on the R and C-Lines.

Duration of some project functions may vary, depending on BART’s ability to acquire in-house project staff.

Prime: STV
