EARTHQUAKE SAFETY PROGRAM

1-DAY HEAVY EQUIPMENT MOVE INSIDE COLISEUM STATION

Dear Customers:

On **Monday, April 25, 2019**, inside Coliseum Station, Concourse level, earthquake safety (seismic) retrofit construction will require temporary, **1-day additional detours on the northwest side of the Station for heavy equipment moves that will start during non-peak hours at approximately 8:30 am, lasting approximately 6 hours.**

Coliseum Station will REMAIN OPEN for BART riders during construction. Add fare and parking machines, restrooms, elevators, escalators, and stairs – *except the southwest stairwell*, will remain accessible (open) during construction with detours. Please watch for directional signs and **allow for additional travel time when traveling through the station.** Flaggers dressed in bright yellow construction vests will be on site to support movement through the work areas. As always, safety is BART's top priority. Please proceed around construction areas with caution and watch for signs with safety information and other notices. Please be advised that changes/modifications may be required at any time; the construction team will make every effort to minimize inconveniences.

As part of BART's systemwide Earthquake Safety Program, seismic retrofit construction activity continues inside and outside Coliseum Station. Temporary relocation of ADA and BART parking located on the westside (San Leandro Street side) of the station continues. Construction outside the station on the south-end is nearing completion. Earthquake Safety construction consists of seismic retrofit work performed on each footing and pier cap (a beam connecting two columns) that serves to support the BART trackway under the alignment. Construction crews have fenced in/delineated work areas, and you will see construction equipment accessing the site such as scissor lifts, forklifts drill rigs, concrete pump/hose and trucks, and scaffolding. There will be noise, however noise, dust and odors will be monitored, and local regulations will be enforced. Similar earthquake safety retrofit construction is underway at Fruitvale Station and nearing completion.

We recognize the inconvenience and appreciate your patience and cooperation during this work. Our aim is to complete seismic retrofit work as quickly as possible, while maintaining BART service. To contact the Earthquake Safety Program or to obtain additional information, please visit our website at www.bart.gov/earthquakesafety or call our Program Information Line at **(510) 874-7425**.

If you need language assistance services, please call BART's Transit Information Center at (510) 465-2278.

Si necesita servicios de asistencia de idioma, llame al centro de información de tránsito del BART al (510) 465-2278.

如需語言援助服務，請致電 BART 公共交通資訊中心，電話號碼為 (510) 465-2278.

통역이 필요하시면, BART 수송 정보 센터 (510) 465-2278 로 전화해 주십시오.

Nếu quý vị cần các dịch vụ trợ giúp ngôn ngữ, xin gọi cho Trung Tâm Thông Tin Chuyên Chở Công Cộng của BART tại số (510) 465-2278.

Kung kailangan mo ang tulong ng mga serbisyo ng wika, paki tawagan ang BART Transit Information Center na (510) 465-2278.
