# **Part 2: Information**

| Title: Transbay Corridor TOD Implementation Strategies    |  |  |  |  |  |  |  |  |  |
|---|--|--|--|--|--|--|--|--|--|
| FAIN Award Type Date Created Last Updated Date From TEAM? |  |  |  |  |  |  |  |  |  |
| CA-2016-066-00 Grant 7/13/2016 7/13/2016 No               |  |  |  |  |  |  |  |  |  |

#### **Executive Summary**

The grant partners will work to develop a comprehensive TOD strategy that fills the remaining gaps in transportation management and development implementation in the Transbay corridor. The cities of Oakland and San Francisco have either recently adopted TOD-supportive land use plans, or are in the planning stages. However, the plans do not account for transit capacity constraints in the Transbay Corridor. The grant activities will enable BART to increase transit ridership by encouraging reverse commuting to Oakland, and incentivizing BART riders to commute to Downtown San Francisco at times outside the peak hour. This set of activities will be complementary to FTA Core Capacity funded improvements and would demonstrate fiscal responsibility by showing that every effort – infrastructure related or not – is being made to address BART's capacity needs.

#### **Delinquent Federal Debt**

No, my organization does not have delinquent federal debt.

### Requires E.O. 12372 Review

No, this application does not require E.O. 12372 Review.

#### Subject to Pre-Award Authority

No, this application is not subject to Pre-Award Authority.

### Will this Grant be using Lapsing Funds?

Yes, this Grant will use Lapsing Funds.

### Frequency of Milestone Progress Reports (MPR)

Quarterly

#### Frequency of Federal Financial Reports (FFR) Quarterly

#### **Project Description**

This work will include extensive land use and economics analysis in regards to commercial and residential development along the BART corridor in Oakland and San Francisco. This analysis will be incorporated into the Downtown Specific Plan – to determine what the current deterrents there are to all development in Downtown Oakland: office, retail, hotel, residential, and entertainment venues. The commercial land uses will create a stronger East Bay employment center. In San Francisco, BART will evaluate the potential for value capture support of major employers to expand transit capacity in downtown San Francisco.

#### **Project Benefits**

This coordinated planning effort between BART and the Cities of San Francisco and Oakland will better prepare the area to compete for future new fixed guideway and core capacity improvement projects.

#### **Additional Information**

The grant partners will work to develop a comprehensive TOD strategy that fills the remaining gaps in transportation management and development implementation in the Transbay corridor. The cities of Oakland and San Francisco have either recently adopted TOD-supportive land use plans, or are in the planning stages. However, the plans do not account for transit capacity constraints in the Transbay Corridor. The grant activities will enable BART to increase transit ridership by encouraging reverse commuting to Oakland, and incentivizing BART riders to commute to Downtown San Francisco at times outside the peak hour. This set of activities will be complementary to FTA Core Capacity funded improvements and would demonstrate fiscal responsibility by showing that every effort – infrastructure related or not – is being made to address BART's capacity needs.

#### **Location Description**

The concentrated focus of this grant will be in and around the the BART Transbay tube, Embarcadero, and Montgomery stations in San Francisco and Oakland's core (West Oakland, 12th Street, 19th Street, Lake Merritt).

### **Project Environmental Findings**

#### Finding: Class II(c) - Categorical Exclusions (C-List)

#### **Class Level Description**

Class II(c) consists of projects called categorical exclusions (CEs) which are known not to have, either individually or cumulatively, a significant environmental impact on the human or natural environment and are therefore categorically excluded from the requirement to prepare an environmental assessment or an environmental impact statement. Class II(c) does not require documentation.

#### **Categorical Exclusion Description**

Type 04: Planning and administrative activities which do not involve or lead directly to construction, such as: training, technical assistance and research; promulgation of rules, regulations, directives, or program guidance; approval of project concepts; engineering; and operating assistance to transit authorities to continue existing service or increase service to meet routine demand.
