# Accessibility Features

## Exterior

- Three doors per car, making getting on and off faster and easier
- “Micro-plug” doors to help seal out noise
- Inter-car barriers for the safety of sight-impaired passengers

## Interior

- Bold priority seat color provides visual cue to yield seats to seniors and people with disabilities
- Embedded symbol in the floor reminds customers to yield wheelchair area
- Seats are higher off the floor, making it easier to sit down and stand up
- Bike rack located at middle door to minimize interference with end door wheelchair areas
- More handholds to grab onto for shorter people and those with mobility impairments
- Tripod pole position shifted and aisles widened to improve wheelchair accessibility
- Tripod branches raised to eliminate pinch points for wheelchair users
- Decals on tripod pole to improve contrast for people with sight impairments
- Intercom directly across from wheelchair area mounted at ADA height

## Signs & Information

- Interior displays showing the next stop and other passenger information
- Icons and translations for non-English speakers
- Exterior digital displays that show route color and the train’s destination
- Automated announcements and improved PA
- Testing of an induction loop system for riders with hearing aids and cochlear implants
