EARTHQUAKE SAFETY CONSTRUCTION

WEEKNIGHT, SINGLE-TRACKING THROUGH TRANSBAY TUBE BEGINS

Dear Customers:

Starting February 11, 2019, as part of BART's systemwide Earthquake Safety Program construction inside the Transbay Tube, expect changes to early morning train service. We will single-track through the Transbay Tube on weekdays after 9pm. Trains will run every 24 minutes, instead of 20 minutes because of single tracking. This change is to support construction activity to accommodate Measure RR funded infrastructure improvements and earthquake safety seismic retrofit to keep BART safe and reliable. On Friday evenings, trains will be added to the schedule after 8pm to the Green (Warm Springs-Daly City), Red (Richmond-Daly City), and Yellow (Antioch) lines to reduce wait times and increase capacity. Early morning/late evening trains will now be longer thanks to the arrival of new Fleet of the Future trains. There will be no expected changes to Saturday service.

Check before you go – BART riders are encouraged to check your [Trip Planner](#) on bart.gov as well as the official [BART app](#) to verify your train schedule before each trip. Weekend single tracking will vary, and weekday morning schedules are starting one hour later. (**Note:** Many of these changes are not listed in the printed brochures.) for more information, visit:

We recognize the inconvenience and appreciate your patience and cooperation during this necessary work. As always, safety is BART's top priority. Our aim is to complete seismic retrofit work as quickly as possible, while maintaining BART service.
