**Warm Springs Station**

Staff will present on overcrossing project at the October BATF meeting.

**Elevators**

The Elevator Flooring Replacement project focuses on replacing the existing flooring with a new material, two-part Polyurea epoxy. It will help prevent liquid from getting beneath the floor and causing damage, and will also make the elevators easier to clean.
Due to the nature of the work, each elevator must be shut down for a minimum of five days.

Alan Smith shared that at the last board meeting, the Board of Directors heard a report on progress for designs to reopen two restrooms located at Powell Street in San Francisco and 19th Street in Oakland.

Randall Glock commented that the BATF should have been given equal opportunity to tour the Fleet of the Future and the eBART cars.

11. Chairperson Announcements

Alan Smith will be out of town from September 8 to September 16. He talked about a recent trip to Yellowknife, Canada, and how accessibility is quite advanced there.

12. Staff Announcements

The Center for Independent Living is interested in placing a mural on a wall located in a corridor at Ashby BART, and hopes the BATF can provide some input in starting the
process. Director Raburn suggested first taking the proposal to Jennifer Easton, BART’s art program manager.

Staff has requested to present on the proposed elevator at 19th Street station.

Testing of the beacon system at SFO will continue over the next month. When that is complete, the BATF will be invited for a tour.

Bob Franklin told members that if they see or read something inaccurate as far as passenger bulletins, that they should let him know.

After the presentation given by Greg Lombardi and Randy Radford, members were allowed to ask questions and/or share any concerns they had.

Staff clarified that once a ticket is processed, the accessible fare gate will remain open for 7 seconds, and the regular fare gate will remain open for 5 seconds. However, that time will be defeated once you break the sensor beam.

It is also acceptable to process your ticket at the fare gate, and then proceed through the swing gate.

Debby Leung suggested that staff meet with mobility instructors in order to educate them about the fare gates and how best to go through them.
