ASSISTANT SUPERINTENDENT OF MAINTENANCE PLANNING AND LOGISTICS

JC: 000209
PB: 9
FLSA: Exempt

BU: 95 (NR)
Created: November 2000
Revised: June 2019

Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are not intended to reflect all duties performed within the job.

DEFINITION

Under direction, oversees the day-to-day activities of Shop Schedulers and Expeditor/Clerks to ensure that maintenance shops meet preventative maintenance material resource requirements and demands; provides support superintendents and higher-level management; and performs related duties as assigned.

CLASS CHARACTERISTICS

This is the first level supervisory/managerial classification within the Rolling Stock Maintenance Shops. Under general direction, this classification manages the multi-shift/multi-craft operation and staffing of rail transit revenue vehicle and associated component maintenance and repair shops and is responsible for the availability and reliability of each line’s revenue vehicle fleet. This classification is distinguished from the Rolling Stock Maintenance Superintendent in that the latter has overall responsibility for managing all activities relating to a major rail transit vehicle maintenance shop.

REPORTS TO:

Rolling Stock Maintenance Superintendent or designee.

EXAMPLES OF DUTIES – Duties may include, but are not limited to, the following:

1. Oversees and schedules staff in the daily operations of maintenance planning.

2. Supervises, monitors training and evaluates expeditor and clerks.

3. Conducts necessary operational studies and investigations to create new policies and processes.

4. Oversees and participates in the management of the Shop Schedulers. Holds meetings with Schedulers to establish and maintain an effective working relationship with maintenance shops.

5. Ensures maintenance shops meet Preventive Maintenance and Material Resources to meet daily and weekly demands.
6. Assists in the development of metrics to better understand the needs of the customers. Ensures metrics are compiled and aligned with standards and specifications.

7. Researches and Studies current Process Documents, compares them to current actual processes and makes recommendations on how and where to make improvements.

8. Creates new SOPs where and as needed. Verifies compliance as required.

9. Ensures proper coordination and communication between expeditor and clerks, schedulers and planners.

10. Trains, motivates and evaluates personnel; coordinates staff training; works with employees to correct deficiencies and implements discipline as required.

11. Establishes appropriate service and staffing levels, monitors and evaluates the efficiency and effectiveness of service to our customers, and allocates resources accordingly. Coordinates activities, attends and participates in professional meetings to ensure compliance.
