

GROUP MANAGER, CAPITAL PROJECTS

JC: 000041
PB: 11
FLSA: Exempt

BU: 95 (NR)
Created: August 2002
Revised: June 2019

*Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are **not** intended to reflect all duties performed within the job.*

DEFINITION

Under general direction, responsible for planning, managing and overseeing various BART capital projects; coordinates project steps with internal and external staff; develops and monitors project budgets; ensures capital projects are in compliance with District policies and procedures; provides highly responsible and complex administrative support to the Assistant General Manager, Design and Construction; and performs additional duties as assigned.

CLASS CHARACTERISTICS

This Deputy Director level classification is responsible for performing administration of a department under the direction of the Director or Executive category. Classifications at this level assist in guiding the development, preparation, and maintenance of the department's policies, may lead collaborative efforts with other internal departments to develop continuous process improvements, or manage consulting contracts and task orders, and monitor and evaluate staff performance and provide feedback, coaching, and/or positive recognition for department personnel and decision-making may have significant, long-term impact on the organization. This classification is distinguished from the Assistant General Manager, Design and Construction in the latter has overall responsibilities for the District's design and construction projects and programs.

REPORTS TO

Assistant General Manager, Design and Construction

EXAMPLES OF DUTIES – *Duties may include, but are not limited to, the following:*

1. Supervises and manages the implementation of various capital projects by directly interfacing with the lead BART personnel for each project, other BART departments, outside stakeholders, and design/construction management consultants.
2. Manages the development and implementation of program goals, objectives, policies and priorities for each assigned area.
3. Establishes, within District policy, appropriate service and staffing levels; monitors and evaluates the efficiency and effectiveness of service delivery methods and procedures; allocates resources

accordingly.

4. Assigns projects and programmatic areas of responsibility; reviews and evaluates work methods and procedures; meets with key staff to identify and resolve problems.
5. Plans, manages and coordinates with internal and external project stakeholders to discuss and resolve various project implementation issues.
6. Provides engineering services and advice in support of design and construction management projects; provides contract oversight for consultant services.
7. Oversees the production of contract documents including specifications, manuals, agreements and related documents.
8. Manages the administration of construction and design/build contracts; develops requests for proposal; evaluates bids; makes recommendations on contract award; negotiates contracts; oversees and administers contracts; ensures appropriate technical, legal and fiscal controls exist within contracts.
9. Selects, trains, motivates and evaluates assigned personnel; provides or coordinates staff training; works with employees to correct deficiencies; implements discipline and termination procedures.
10. Oversees and participates in the development and administration of the program budget; approves the forecast of funds needed for staffing, equipment, materials and supplies; approves expenditures and implements budgetary adjustments as appropriate and necessary.
11. Explains, justifies and defends programs, policies and activities; negotiates and resolves sensitive and controversial issues.
12. Participates on a variety of boards, commissions and committees; prepares and presents staff reports and other necessary correspondence.
13. Attends and participates in professional group meetings; stays abreast of new trends and innovations in the field of engineering and construction management.
14. Responds to and resolves difficult and sensitive citizen inquiries and complaints.
