

MANAGER OF RAIL OPERATIONS

JC: 000199

PB: 9

FLSA: Exempt

BU: 95 (NR)

Created: 1999

Revised March 2019

Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are not intended to reflect all duties performed within the job.

DEFINITION

Under general direction, directs, manages, supervises and coordinates the District's rail activities and operations within the Transportation Department including developing and implementing methods and procedures for efficient and effective train operations; administers the Transportation Department's safety program; coordinates assigned activities with other divisions, departments and outside agencies; assists the Assistant Chief Transportation Officer, Service Delivery in overseeing and managing objectives, standards, and performance levels of Supervisors, Foreworkers and Train Operators; and performs related duties as assigned.

CLASS CHARACTERISTICS

This is the full-scope managerial level classification which directs and coordinates, through supervisory staff, activities relating to the development, preparation and dissemination of procedures, standards, directives, and manuals for rail operations, safety, passenger service, performance reporting and managing capital improvement projects for rail operations. The classification is accountable for accomplishing departmental goals and objectives and for furthering District goals and objectives within general policy guidelines. This classification is distinguished from the Assistant Chief Transportation Officer, Service Delivery in that the latter has overall responsibility for managing, through subordinate management/supervisory staff, the multi-shift operations and staffing of yard and revenue train service activities.

REPORTS TO

This position reports to the Assistant Chief Transportation Officer, Service Delivery or his/her designee.

EXAMPLES OF DUTIES - *Duties may include, but are not limited to, the following:*

1. Assumes management responsibility for assigned services and activities of the rail operations for the Transportation Department including development of operational strategies for construction and maintenance activities, coordinating safe and efficient revenue operations, and developing and administering assigned safety programs.
2. Manages and participates in the development and implementation of goals, objectives, policies and priorities for assigned programs; recommends and administers policies and procedures.

Manager of Rail Operations

3. Monitors and evaluates the efficiency and effectiveness of rail operations service delivery methods and procedures; recommends, within departmental policy, appropriate service and staffing levels; oversees and monitors the provision of quality customer service at designated location.
4. Plans, directs, coordinates and reviews the work plan for assigned staff; assigns work activities, projects and programs; reviews and evaluates work products, methods and procedures; meets with staff to identify and resolve problems; oversees, manages and coordinates department decisions with the Assistant Chief Transportation Officer, Service Delivery and Labor Relations on matters of employment, employment relations, disciplinary action to ensure continued labor management dialogue, working relations, and direction of shared interest concerns.
5. Develops, prepares, implements and evaluates operational strategies with other departments to facilitate maintenance and construction project activities; ensures that adverse impact on revenue service due to maintenance and construction activities is minimized; responds to accidents, emergencies, service disruptions, inclement weather, natural disasters, and special events.
6. Meets with representatives of the District to ensure safe and efficient revenue operations; coordinates related activities of the rail operations for the Transportation Department with other departments and divisions; and coordinates operational activities and special projects to ensure safety standards are met; monitor multiple field locations and respond to major rail system emergencies 24 hours a day/7 days a week.
7. Develops and administers the rail operations safety program and related activities within the Transportation Department for assigned personnel including overseeing the investigation and analysis process for accidents and incidents (as appropriate); implements safety rules, regulations and procedures; develops and disseminates safety bulletins; organizes and schedules safety training workshops.
8. Analyzes and evaluates rail operations to determine budgetary impact in the event of service delivery changes; reports findings to Assistant Chief Transportation Officer, Service Delivery and/or other management staff.
9. Directs the preparation and submission of a variety of technical and complex reports regarding rail operations.
10. Oversees compliance with all federal, state, city and regulatory agency rules, regulations, policies, and procedures; monitors developments and legislation related to assigned area of responsibility; evaluates impact upon district operations; recommends and implements equipment, practice and procedural improvements.
11. Oversees and manages performance criteria, goals and evaluation procedures and processes; selects, trains, motivates and evaluates assigned personnel; provides or coordinates staff training; works with employees to correct deficiencies; implements discipline and termination procedures; Actively lead staff to maintain high standards of performance, productivity and competence through clear direction, effective communication, coaching, performance management, training, development and relationship management to optimize and maintain system performance to provide reliable, safe, cost effective and customer focused service.
