

PROJECT MANAGER, ACCESSIBILITY

JC: 000258
PB: 9
FLSA: Exempt

BU: 95 (NR)
Created: June 2019

*Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are **not** intended to reflect all duties performed within the job.*

DEFINITION

Under general direction, manages the District's Accessibility Improvement Program by managing design and construction projects; creates scopes, budgets and schedules and manages design and construction management teams; provides accessibility guidance and serves as BART's accessibility resource; performs related duties as assigned.

CLASS CHARACTERISTICS

This classification manages major engineering construction or equipment acquisition projects from conceptual planning through completion throughout the District whether accomplished by contract or by District staff, and is accountable for further District goals and objectives within general policy guidelines. This classification is distinguished from the Engineering Division Manager classes in that the latter have ongoing responsibility for a specified engineering division.

REPORTS TO:

District Architect or designee.

EXAMPLES OF DUTIES - *Duties may include, but are not limited to, the following:*

1. Manages BART's Accessibility Improvement Program's engineering design and construction projects or programs in assigned areas from conceptual design through completion; project areas may include rail car procurement and rehabilitation, stations construction and rehabilitation, automated fare collection, and transit systems and structures design and construction.
2. Develops and directs project work standards from design through final program and equipment acceptance.
3. Develops and directs the implementation of goals, objectives, policies and procedures in assigned project areas.
4. Plans, organizes, assigns, reviews and evaluates the work of assigned District and contract staff; manages and directs the work of contract consultants.

5. Directs or participates in the preparation and review of designs, plans, specifications and cost estimates; ensures specifications and contract requirements comply with District standards and policies.
6. Identifies equipment or systems needs on assigned projects; evaluates functional requirements; reviews vendor and manufacturer design and specifications on project equipment and materials; coordinates equipment procurement and testing activities; oversees equipment installation.
7. As assigned, oversees contractor and consultant contracts; develops scope of work; prepares request for proposal; reviews proposals and makes recommendation on selection; assists in contract negotiation and preparation; monitors work activities to ensure compliance with contractual obligations.
8. Manages design and construction management teams.
9. Performs construction project management duties; prepares cost estimates; prepares and monitors project schedules and budgets; conducts field inspections as required; monitors work in progress; writes, approves, negotiates and executes contract changes; authorizes contract payments upon project completion.
10. Serves as the project liaison with other divisions, departments and outside agencies; negotiates and resolves project issues.
11. Provides responsible staff assistance for higher level management staff on projects and related matters.
12. Attends and participates in professional group meetings; stays abreast of new trends and innovations in the field of engineering design and construction.
13. Facilitates training workshops for District staff and consultants.
14. Oversees and directs maintenance of District wide Braille Station Signage – Accessibility Policy Committee, Platform Edge Warning Tile Standards
